RIVERSIDE COUNTY FLOOD CONTROL AND WATER CONSERVATION DISTRICT

October 28, 2022

To the Members of the Board of Supervisors and Citizens served by the Riverside County Flood Control and Water Conservation District:

State law requires that every general-purpose local government publish, within six months of the close of each fiscal year, a complete set of audited financial statements. The Riverside County Flood Control and Water Conservation District (District) is a component unit of the County of Riverside, California. This report is published to fulfill that requirement for the fiscal year ended June 30, 2022.

Responsibility for the accuracy of the reported data and the completeness and reliability of the facts contained in this report rests with the management of the Riverside County Flood Control and Water Conservation District. The report has been prepared in accordance with generally accepted accounting principles (GAAP) recommended for government entities and provides a thorough overview of the Riverside County Flood Control and Water Conservation District's financial operations and financial position.

Van Lant & Fankhanel, LLP, Certified Public Accountants, has issued an unmodified ("clean") opinion on the District's financial statements for the year ended June 30, 2022. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. Management's discussion and analysis complement this letter of transmittal and should be read in conjunction with it.

Riverside County Flood Control and Water Conservation District and Its Services

The District, formed in 1945 by an Act of the State Legislature, is in the southern part of the State within the County of Riverside, which boasts the 7th largest cumulative numeric increase in population in the country. The District currently occupies 2,676 square miles and serves a population of approximately 2.16 million. The District is divided into seven geographic zones and is empowered to levy property or special assessment tax on both real and personal property located within the boundaries of each zone. Taxes collected within each zone must be spent for flood control projects within, or proportionally beneficial to, that zone.

The County of Riverside, Board of Supervisors, ex officio, has been the District's governing body since 1945. Policy making and legislative authority are vested in the Board, consisting of five members elected on a non-partisan basis. Board members serve staggered four-year terms with member seats opening for election on an alternating basis. The Board of Supervisors appoints the District's General Manager-Chief Engineer, who in turn appoints the heads of the various Divisions within the District.

¹ Source: U.S. Census Bureau, Estimates of the Components of Resident Population Change: April 1, 2010 to July 1, 2021

Additionally, the Board of Supervisors appoints three Zone Commissioners to each zone. The Zone Commissioners act as an advisory body to the Board of Supervisors by prioritizing the need for new flood control facilities within a zone based on requests from citizens, Cities, and other agencies within the zone boundaries, and making budget recommendations for new or pending projects in the upcoming fiscal year.

The District provides a full range of services, including the design and construction of flood control facilities; regulatory services which fulfill legal requirements associated with federal and state programs that relate to District activities; surveying and mapping services; watershed protection services; planning and developer services that relate to land development, and provide for the public's health and safety by contributing to orderly development and growth within the County; the operation and maintenance of the District's fleet and facilities, land interests, and encroachment issues; watershed analytics services which provide technical support to District staff; administrative services providing clerical, financial, and personnel support to District staff; and government affairs services to increase public engagement.

The Board of Supervisors is required to adopt by resolution a final budget for the County of Riverside, including all districts, agencies, and authorities governed by the Board of Supervisors, no later than October 2nd of each year pursuant to Sections 29080 through 29092 of the Government Code. The Board of Supervisors adopted the District's 2022 fiscal year budget on June 29, 2021. The annual budget serves as the foundation for the District's financial planning and control. The District's legal level of budgetary control is by class or appropriation level (e.g., salaries and benefits, services, and supplies) within each category present on the financial statements. The District may transfer resources between appropriation levels within the same fund at their discretion and with approval by the County of Riverside Executive Office. Increase of resources or establishment of a new appropriation level requires approval by the Board of Supervisors.

Local Economy

Demands on the County's already scarce water supply will continue to rise due to population growth and drought. The District keeps looking to increase water conservation initiatives and find more avenues for revenue generation to meet this demand. The District's revenue is primarily supported by special assessments and taxes. The District oversees the western portion of the Riverside County. which includes twenty-eight cities and unincorporated county communities west of the San Jacinto and Santa Rosa Mountains. Riverside County is California's fourth largest populated county according to the State Department of Finance. It represents 6.22% of California's total population.² Riverside County is part of a larger area known as Southern California's Inland Empire, comprised of Riverside and San Bernardino counties. It is approximately 60 miles from north to south and some 50 miles wide. Major industries located within the Riverside County include government, retail trade, educational and health services, leisure and hospitality, and construction.

Riverside County experienced the same drop as the Inland Empire; from July 2021 to June 2022, the unemployment rate in the Inland Empire dropped from 8.0% to 3.9%, and in Riverside County, the unemployment rate dropped from 8.0% to 4.0%. Nonfarm employment increased by 84,400 (5.4%) and agricultural employment increased by 2,400 up (17.7%) within the year. The trade, transportation, and utilities industries made a sizeable recovery by adding 34,200 jobs. The leisure and hospitality industry accounted for another 16,200 jobs, while educational and health services accounted for an additional 10,000 jobs. Government, manufacturing, and financial activities gained a total of 24,000 jobs within the year.³

³ Source: State of California, Employment Development Department, Labor Force Data – Riverside and San Bernardino Counties.

Over the past ten years, the District's expenses related to the construction and maintenance of flood control facilities have increased 37.40%. Maintenance costs for the current fiscal year ended have decreased by 14.8% from the prior year.

With the variation of the economy, the District continues to follow a moderate construction schedule. The District's practice has been to accumulate monies for large projects while maintaining a prudent reserve for operations and maintenance.

During this same ten-year period, charges for services increased, both in amount and as a percentage of total revenues, reflecting a ten-year increase of 55.39%.

Long-term Financial Planning

Timely project development is facilitated by the District's five-year Capital Improvement Plan (CIP) which provides a long-range plan for funding of designated flood control and drainage infrastructure projects. The CIP details revenues and expenditures anticipated for each project for a five-year period. The CIP is an internal document and is provided as information in the District's annual budget. The CIP does not contain all projects that need to be completed, but rather those projects that will be initiated during the prescribed five-year period.

Relevant Financial Policies

The District's cash and investments, stated at fair value, are on account with and pooled with other governmental agencies by the County of Riverside Treasurer for the purpose of increasing income through investment activities. U.S. Bank Corporate Trust Services serves as the District's fiscal agent for special assessment debt and cash reserves. See *Note 2* in the *Notes to Financial Statements* section of this report for more detailed information.

The County of Riverside recognizes governmental Generally Accepted Accounting Principles (GAAP), as ordered by the Governmental Accounting Standards Board (GASB), as the highest-ranking set of standards pertinent to the County's accounting practices. These standards take utmost priority over all other standards, laws, and regulations.

Major Initiatives - Design and Construction

During the fiscal year ended June 30, 2022, the District issued notices of completion for three projects totaling over \$12 million dollars in construction costs. At the close of the fiscal year, the District had four construction contracts in progress totaling an additional \$9.8 million dollars. Many of these projects are estimated for completion by the end of calendar year construction 2022.

The following District-administered construction contracts were completed or were under construction during Fiscal Year 2021-2022:

| Facilities | Status | Construction Costs |
|--|--------------------|--------------------|
| S. Norco Ch. Stg 6, Norco MDP Line S-1, Stg 1 and Norco MDP Line | Completed 08-31-21 | \$7,616,441.51 |
| S-5, Stg 1 | | |
| Banning MDP Line H, Stage 1 | Completed 08-17-21 | \$3,336,625.19 |
| Norco Crestview Drive Debris Basin, Stage 91 | Completed 12-07-21 | \$1,020,362.66 |
| Bautista Creek Channel Recharge Basin Expansion, Stg 50 | In-Progress | \$1,756,236.00 |
| Romoland MDP Line A-3, Stages 2 & 3 | In-Progress | \$4,280,283.00 |
| Woodcrest Dam Outlet Modification, Stage 90 | In-Progress | \$1,012,731.00 |
| Potrero Creek Debris Basin, Stg 90 | In-Progress | \$2,700,625.00 |
| Paramount Estates MDP Line C | In-Progress | \$1,836,595.00 |
| Palm Springs MDP Line 41, Stages 3&4 | In- Progress | \$15,985,186.00 |
| Beaumont MDP Line 16, stage 50 | In-Progress | \$7,785,409.00 |

South Norco Channel, Stage 6 and Norco MDP Lines S-1 & S-5 – This is a District-led project that will reduce flooding and remove properties from the floodplain between Second and Fourth Streets east of Corona Circle. It is expected to benefit both local residences, traffic, as well as benefit Norco Intermediate School and Norco High School.

Banning MDP Line H – This is a District-led project that will reduce flooding along Hathaway Street between Barbour Street and Wesley Street. It will collect flows in Hathaway Street beginning at Barbour Street and convey them south in an underground storm drain within Hathaway Street, then east along Wesley Street until it discharges into Smith Creek.

Norco-Crestview Debris Basin, Stage 91 – This is District-led project requested by the City of Norco proposes to reduce mud/debris issues along Crestview Drive by constructing a debris basin (1.8-acre site) at the foot of the La Sierra Hills. The debris basin will collect mud/debris at three locations along the La Sierra Hills. After settling larger sediment and debris in the basin, 10-year flows will drain from the basin southwesterly into the recently constructed underground storm drain in Crestview Drive (Norco MDP Line NA-1, Stage 2). This project is funded by the District.

Bautista Creek Channel Recharge Basin Expansion, Stage 50 – This is District-led project, in partnership with Lake Hemet Municipal Water District, will expand groundwater recharge by constructing six infiltration basins on the existing 17.5 acres of open space adjacent to Bautista Creek Channel. This project is funded by a combination of District funds, external funding from a Proposition 84 state grant administered by the California State Department of Water Resources, and a contribution from the Lake Hemet Municipal Water District.

Romoland MDP Line A-3 – This is a District-led project that will ultimately protect existing neighborhoods along Varela Lane and properties south of Varela Lane and east of Palomar Street. Stage 1 of Line A-3 was already constructed near Case Road in Palomar Street. Stages 2 and 3 will extend this storm drain system north in Palomar Road to Varela Lane. The total length of these two stages is approximately 3,200 feet of underground box storm drain (12'Wx6.5'H). This project also enables the future construction of Stages 4 and 5 which extend east along Varela Lane. The full benefit of this project will not be realized until Stages 4 and 5 are also constructed. This project is funded by the District.

Woodcrest Dam Outlet Modification – This is a District-led project to upgrade the safety and operation of Woodcrest Dam. The improvements include replacing the existing gate assembly and control system, replacing the existing outlet structure with a new debris rack outlet structure to reduce clogging potential, and installation of erosion control measures on the embankment slope. This project is funded by the District.

Potrero Creek Debris Basin, Stage 90 – This is a District-led project to restore the capacity and function of the existing Potrero Creek Debris Basin by removing accumulated sediment within the basin. As a result of intense rainfall and very high flows in Riverside County, the basin was overtopped with sediment, resulting in damage to the downstream San Jacinto River levees. Approximately 340,000 cubic yards of sediment will be excavated and removed from the existing basin footprint.

Paramount Estates MDP Line C – This is a District-led project that will provide flood protection for the existing neighborhood southwest of the Canal Street and Opal Street intersection in Jurupa Valley. It will also provide flood protection to parts of the Tentative Tract map 37211. The project will construct 1,100 feet of various size (36"-48") reinforced concrete pipe approximately 77 lineal feed of a double cell 11'x7' reinforced concrete box, and modifications to both existing Sunnyslope Channel and Sunnyslope Channel Freeway Lateral.

Palm Springs MDP Line 41, Stages 3 & 4 – Stage 3 of the Line 41 system is a District-led project to install approximately 5,450 feet of underground pipe ranging from 30"-108" and construct a 7-acre detention basin. Stage 4 of the Line 41 system is a District-led storm drain improvement project to install approximately 1,365 feet of 84" reinforced concrete pipe.

Beaumont MDP Line 16, Stage 50 – This is a District-led project that will promote water conservation and recharge in the Hemet-San Jacinto Valley groundwater basin areas. The project includes construction of approximately 6,770 liner feet of an underground storm drain system located in the community of Cherry Valley that will capture storm flows and convey them to Beaumont-Cherry Valley Water District Noble Creek Recharge Facility.

Furthermore, the District kept up its cooperation with the Cities of Corona, Norco, Moreno Valley, San Jacinto, and Riverside to deliver priority infrastructure. These Cities are overseeing the design and implementation of substantial flood control projects using District financing (given through Board-approved cooperative agreements).

Other Division Accomplishments

The Emergency Management and Government Affairs Division has completed the Santa Ana River Mainstem Project (BNSF Component). A major milestone has been made with the turnover of Murrieta Creek Phase 1 and 2A to the District for long-term operation and maintenance. This allows the District to repair and rehabilitate land and easements in the Santa Ana River areas.

The Watershed Protection Division signed a multi-year partnership with Western Riverside Council of Governments to achieve multiple regional goals through the 'Love Your Neighborhood' program. This program is to prevent pollution, which includes littering, recycling, and hazardous waste, in the environment. Multiple compliance reports were also completed, including Santa Ana River, Santa Margarita River, and Whitewater River annual compliance reports.

The Developer Services Division had 58 plan check projects approved, 36 new projects submitted, and completed 201 plan check reviews proposing 89 thousand linear feet of storm drain infrastructure. Additionally, a total of 18 new encroachment permits were issued. With new projects and plan checks, this shows that there is new land development happening in Riverside County, which also benefits the economy.

Awards and Acknowledgments

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its annual comprehensive financial report (ACFR) for the fiscal year ended June 30, 2021. This was the thirty-first consecutive year that the District published an easily readable and efficiently organized ACFR that satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current ACFR continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

Without the effective and devoted work of the employees of the Finance Division, it would not have been possible to prepare this report. We would like to thank all the District staff who provided input for the preparation of this report. Special thanks go out to the Chief of Finance, Darrylenn Prudholme-Brockington; Administrative Services Supervisor, Sunita Jain; Accountant II, Charlene Villalvazo; and Accountant II, Amber Hartoog, for their efforts in the preparation of this report. Credit must also be given to the Board of Supervisors for their unfailing support in maintaining the highest standards of professionalism in the management of the District's finances.

Respectfully submitted,

Jason Uhley

Independent Auditor's Report

The Honorable Chairman and Board of Supervisors
Riverside County Flood Control and Water Conservation District

Report on the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Riverside County Flood Control and Water Conservation District (District), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Riverside County Flood Control and Water Conservation District, as of June 30, 2022, and the respective changes in financial position, and, where applicable, cashflows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Change in Accounting Principle

As described in Note 11 to the financial statements, in 2022, the District adopted new accounting guidance, *GASB Statement No. 87, Leases.* Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud
 or error, and design and perform audit procedures responsive to those risks. Such procedures include
 examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
 are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
 raise substantial doubt about the District's ability to continue as a going concern for a reasonable period
 of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying combining statements, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting

and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining statements, as listed in the table of contents, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

Van Laut + Fankhanel, 11P

In accordance with *Government Auditing Standards*, we have also issued a report dated October 28, 2022, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Murrieta, California October 28, 2022

Management's Discussion and Analysis

As management of the Riverside County Flood Control and Water Conservation District (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2022. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i - vi of this report. All monetary amounts, unless otherwise indicated, are expressed in the nearest dollar.

Financial Highlights

- ♦ The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$1,357,924,979 (net position).
- ♦ The District's total net position increased by \$72,903,198. Approximately 49 percent of this increase is attributable to the addition of donated capital assets, i.e., infrastructure and land, net of investment related expenses.
- ♦ The (\$23,930,911) deficit reported in unrestricted net position is the result of the District's unfunded net pension liability.
- ♦ As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$287,756,485, an increase of \$13,133,782 in comparison with the prior year. Approximately 1 percent of this amount (\$3,600,164) is available for spending at the District's discretion (unassigned fund balance).
- At the end of the fiscal year, unrestricted fund balance (the total of the committed, assigned, and unassigned components of fund balance) for the general fund was \$5,570,531, or 80 percent of total general fund expenditures.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all the District's assets, liabilities, and deferred inflows/outflows, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation).

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the District include general government and public ways and facilities. The business-type activities of the District include Subdivision Operations, Photogrammetry Operations and Encroachment Permits. The government-wide financial statements can be found on pages 15-17 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of the District can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources, available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains 13 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and the special revenue funds, both of which are considered major funds. The capital project fund and the debt service fund, nonmajor funds, are presented as *Other Governmental Funds* in the basic governmental fund financial statements.

The District adopts an annual appropriated budget for its governmental funds. Budgetary comparison statements have been provided for the governmental funds to demonstrate compliance with this budget.

The governmental fund financial statements can be found on pages 18-25 of this report.

Proprietary funds. The District maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The District uses *enterprise funds* to account for its subdivision, photogrammetry and encroachment permit operations. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District uses internal service funds to account for its hydrology, garage, project maintenance, mapping services and data processing. Because these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the subdivision operation, which is considered a major fund of the District. Data from the other two enterprise funds is combined into a single, aggregated presentation. Individual fund data for each of these non-major enterprise funds is provided in the form of *combining statements* elsewhere in this report. Conversely, the five internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of *combining statements* elsewhere in this report.

The District adopts an annual appropriated budget for its proprietary funds.

The proprietary fund financial statements can be found on pages 26-28 of this report.

Notes to the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 29-53 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the District's schedule of changes in the net pension liability during the measurement period reported, schedule of plan contributions, progress in funding its obligation to provide other postemployment benefits to its employees. Required supplementary information can be found on pages 54-71 of this report.

The combining statements referred to earlier in connection with non-major governmental funds, enterprise funds and internal service funds are presented immediately following the required supplementary information on pensions. Combining and individual fund statements and schedules can be found on pages 72-88 of this report.

Government-wide Financial Analysis

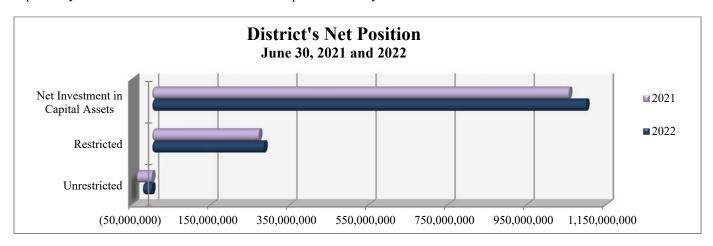

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$1,357,924,979 at the close of the most recent fiscal year.

By far the largest portion of the District's net position (81 percent) reflects its net investment in capital assets (e.g., land and easements, buildings and improvements, infrastructure, and equipment), less any related outstanding debt that was used to acquire those assets. The District uses these capital assets to provide services to prevent and to protect citizens from flooding within the District's zone boundaries; consequently, these assets are *not* available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

| Net Position: | | | | | | |
| Net Investment in Capital Assets | 1,098,085,142 | 1,054,620,396 | 56,537 | 110,768 | 1,098,141,679 | 1,054,731,164 |
| Restricted | 283,714,211 | 270,457,619 | - | - | 283,714,211 | 270,457,619 |
| Unrestricted | (22,545,238) | (38,462,676) | (1,385,673) | (1,704,326) | (23,930,911) | (40,167,002) |
| Total Net Position | \$1,359,254,115 | \$1,286,615,339 | (\$1,329,136) | (\$1,593,558) | \$1,357,924,979 | \$1,285,021,781 |

An additional portion of the District's net position (21 percent) represents resources that are subject to external restrictions on how they may be used. As noted earlier, the deficit balance of (\$23,930,911) reported in unrestricted net position (-2 percent) is primarily the result of the District's unfunded net pension liability.

The District's overall net position increased \$72,903,198 from the prior fiscal year. The District experienced a net increase primarily due to decreases in overall expenses.

Governmental activities. During the current fiscal year, net position for the governmental activities increased the District's net position by \$72,638,776 from the prior fiscal year, thereby accounting for nearly 100 percent of the total increase in net position for the District. Key elements of the increase are as follows:

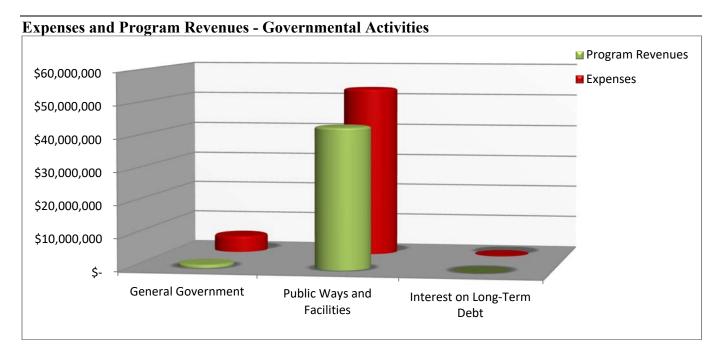

District's Changes in Net Position

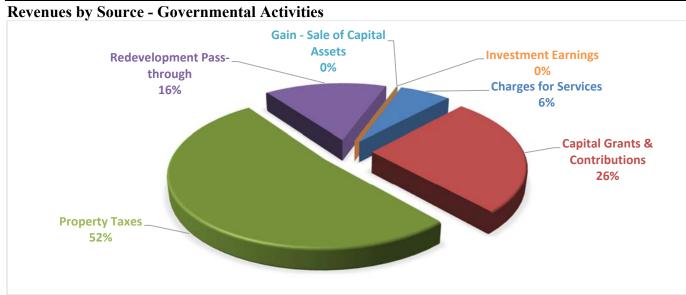

| | Governmental Activities | | Business-typ | Business-type Activities | | Total | |
|--|--------------------------------|-----------------|---------------|---------------------------------|-----------------|-----------------|--|
| | 2022 | 2021 | 2022 | 2021 | 2022 | 2021 | |

| Net Position - Ending | \$1,359,254,115 | \$1,286,615,339 | (\$1,329,136) | (\$1,593,558) | \$1,357,924,979 | \$1,285,021,781 | |

♦ Historically, ongoing revenues for governmental activities have exceeded expenses as a percentage of net position by approximately less than 1 to 2 percent in a given fiscal year. During the year, ongoing revenues exceeded expenses by \$36,840,346 (approximately 3 percent of net position).

For the most part, increases and decreases in expenses paralleled inflation and growth in the demand for services. Noteworthy exceptions include the following:

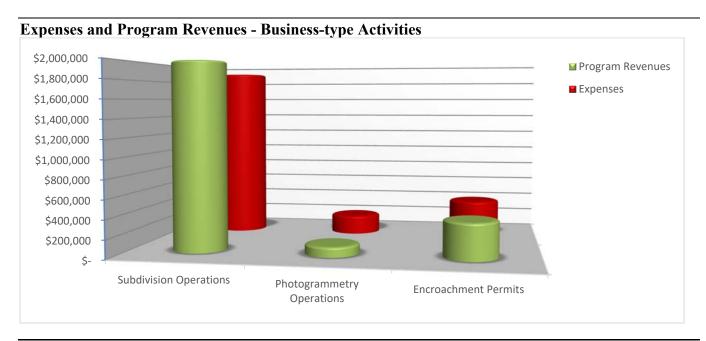

- ♦ An increase in Capital Grants and Contributions revenue of \$9,035,154 (34 percent) associated with an increase in donated capital assets (infrastructure and land in various zones) being placed in service.
- ♦ A decrease in expenses of \$34,791,724 (37 percent) due primarily to a reduction in total pension expense.

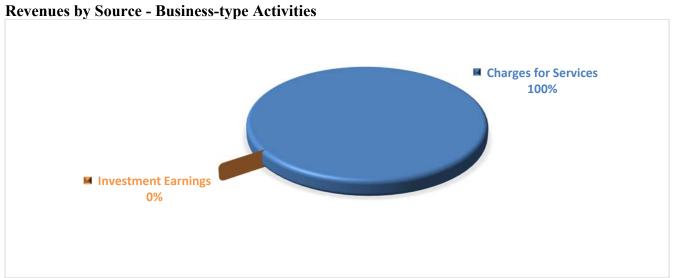

Business-type activities. Business-type activities increased the District's net position by \$264,422. Key elements of the increase are as follows.

• Overall charges for services for business-type activities increased by 35 percent while expenses increased by 6 percent from the previous fiscal year. Historically, increases and decreases in charges for services and expenses are development related and will vary based on the level of private development activity within the County of Riverside. Development activity within the Subdivision Operations fund has increased by 18 percent over the past year due to fluctuation in the economy. Normal operating expenses increased by 6 percent due to increased engineering service costs associated with the increased development activity that occurred during the fiscal year.

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. Restricted, assigned, and unassigned fund balances may serve as a useful measure of a government's net resources available for spending at the end of a fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$287,756,485 an increase of \$13,133,782 in comparison with the prior year. The majority of this total amount (\$282,185,354) constitutes restricted fund balances, which reflect resources that are subject to externally enforceable legal restrictions that arise when the authorization to raise revenues is conditioned upon the revenue being used for a particular purpose, e.g., maintenance and construction of flood control facilities within designated zone boundaries. Unassigned fund balance (\$4,231,236) reflects surplus resources in the District's general fund that are available for spending at the District's discretion. The remainder of fund balance is assigned fund balance (\$1,339,295), which reflects resources that the District intends to use to fund accrued compensated absence liabilities as required, and nonspendable fund balance (\$600) for imprest cash.

The general fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$4,231,236, while total fund balance reached \$5,571,131. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 61 percent of total general fund expenditures, while total fund balance represents 80 percent of that same amount.

During the current fiscal year, the fund balance in the District's general fund increased by \$380,141. The increase in fund balance is primarily a result of decreases in expenditures during the current fiscal year. General government expenditures decreased by \$511,219 primarily as a result of increased contributions made from other District funds to offset the administrative support costs of the general fund.

The special revenue funds account for the following:

- Revenues and expenditures related to providing flood control facilities maintenance and the design and construction of flood control facilities within defined geographical areas Zone 1 through Zone 7 (zone funds).
- Revenues and expenditures related to the administration of and compliance with the National Pollutant Discharge Elimination System (NPDES) regulations for the Whitewater, Santa Ana, and Santa Margarita benefit assessment areas (NPDES funds).

The zone funds had an aggregate fund balance of \$272,145,649 at the end of the current fiscal year. The aggregate net increase in fund balance during the current year was \$12,563,301. Property tax and redevelopment revenues account for approximately 98 percent of total zone fund revenues and can fluctuate from year to year based on property values and foreclosures within each zone boundary as well as economic activity within the County of Riverside. Fluctuation in property tax revenues can positively or negatively impact growth in total fund balance. Key factors in the aggregate net increase are as follows:

- ♦ Zone 1 reported a fund balance of \$46,560,639 at the end of the current fiscal year. The net increase in fund balance during the current fiscal year was \$4,606,576. Property tax and redevelopment revenues account for approximately 99 percent of total revenues in this zone fund.
 - In comparison to the prior year, the positive change in fund balance reflects an increase of approximately 221 percent (\$8,405,532). Overall revenues increased (\$384,591) as a result of increases in property tax revenue (\$400,549), redevelopment revenue (\$158,146), intergovernmental revenue (\$47,810), area drainage fees (\$336,516), and use of assets from the lease of land (\$231,037). These increases offset the decreases in charges for services (\$29,653) and investment earnings (\$759,814). Additionally, expenditures decreased (\$8,018,968) due primarily to a decrease in contributions made to non-County agencies within Zone 1 compared to the prior year.
- ♦ Zone 2 reported a fund balance of \$91,587,214 at the end of the current fiscal year. The net increase in fund balance during the current fiscal year was \$8,578,240. Property tax and redevelopment revenues account for approximately 105 percent of total revenues in this zone fund.
 - In comparison to the prior year, the positive change in fund balance reflects an increase of approximately 3,214 percent (\$8,319,396). Overall revenues decreased (\$365,617) as a result of decreases in charges for services (\$4,728), investment earnings (\$1,447,018), and the use of assets from the lease of land (\$153,335). These decreases were partially offset by increases in property tax revenue (\$838,154), redevelopment revenue (\$207,102), intergovernmental revenue (\$190,393), and area drainage fees (\$3,815). Additionally, expenditures decreased (\$8,673,799) due primarily to decreases in construction activity and contributions to non-County agencies within Zone 2 compared to the prior fiscal year.
- ♦ Zone 3 reported a fund balance of \$9,281,799 at the end of the current fiscal year. The net increase in fund balance during the current fiscal year was \$1,340,863. Property tax and redevelopment revenues account for approximately 102 percent of total revenues in this zone fund.

In comparison to the prior year, the positive change in fund balance reflects an increase of approximately 450 percent (\$1,723,568). Overall revenues increased (\$32,038) as a result of increases in property tax revenue (\$94,016), redevelopment revenue (\$32,287), and area drainage fees (\$61,763). These increases offset the decreases in special assessments (\$496), intergovernmental revenue (\$9), charges for services revenue (\$4,163), and investment earnings (\$151,360). Additionally, expenditures decreased (\$1,692,102) due to a decrease in construction costs compared to the prior fiscal year.

♦ Zone 4 reported a fund balance of \$59,718,287 at the end of the current fiscal year. The net decrease in fund balance during the current fiscal year was \$3,368,809. Property tax and redevelopment revenues account for approximately 96 percent of total revenues in this zone fund.

In comparison to the prior year, the negative change in fund balance reflects a decrease of approximately 156 percent (\$9,366,957). Overall revenues increased (\$587,933) as a result of increases in property tax revenue (\$1,061,585), redevelopment revenue (\$474,014), charges for services (\$221,102), and use of assets from the lease of land (\$1,511). These increases offset the decreases in intergovernmental revenue (\$92,379), area drainage fees (\$116,585), and investment earnings (\$961,315). Additionally, expenditures increased (\$9,954,890) as a result of increased land purchases, professional service costs, and construction costs related to the Portrero Creek Debris Basin project, the Romoland MDP Line A-3 project, and the Bautista Creek Channel Recharge Basin Expansion project.

♦ Zone 5 reported a fund balance of \$17,121,808 at the end of the current fiscal year. The net decrease in fund balance during the current fiscal year was \$524,381. Property tax and redevelopment revenues account for approximately 88 percent of total revenues in this zone fund.

In comparison to the prior year, the negative change in fund balance reflects an increase of approximately 85 percent (\$2,955,122). Overall revenues increased (\$1,109,528) as a result of increases in property tax revenue (\$299,371), redevelopment revenue (\$123,675), and intergovernmental revenue (\$986,726). These increases offset the decreases in charges for services (\$10) and investment earnings (\$300,234). Additionally, expenditures decreased (\$1,852,921) due a reduced construction costs within Zone 5 compared to the previous fiscal year.

♦ Zone 6 reported a fund balance of \$14,521,128 at the end of the current fiscal year. The net decrease in fund balance during the current fiscal year was \$295,786. Property tax and redevelopment revenues account for approximately 103 percent of total revenues in this zone fund.

In comparison to the prior year, the negative change in fund balance reflects a decrease of approximately 151 percent (\$875,441). Overall revenues decreased (\$161,653) due primarily to decreases in intergovernmental revenue (\$310,102), charges for services (\$9,964), investment earnings (\$247,279), and the use of assets from the lease of land (\$106,563). These decreases were partially offset by the increases in property tax revenue (\$266,273) and redevelopment revenue (\$245,982). Additionally, expenditures increased (\$718,498) due primarily to an increase in professional service costs and construction costs related to the Palm Springs MDP Line 41 project.

♦ Zone 7 reported a fund balance of \$33,354,774 at the end of the current fiscal year. The net increase in fund balance during the current fiscal year was \$2,226,598. Property tax and redevelopment revenues account for approximately 92 percent of total revenues in this zone fund.

In comparison to the prior year, the positive change in fund balance reflects an increase of approximately 13 percent (\$258,352). Overall revenues increased (\$526,165) as a result of increases in property tax revenue (\$297,008), redevelopment revenue (\$9,592), intergovernmental revenue (\$15,275), charges for services (\$487,497), and area drainage fees (\$302,157). These increases offset the decreases in investment earnings (\$542,164) and the use of assets from the lease of land (\$43,200). Additionally, expenditures increased (\$263,135) due primarily to contributions made to the U.S. Army Corps of Engineers for the continuation of the Murrieta Creek Environmental Restoration and Recreation project.

The NPDES funds had an aggregate fund balance of \$10,017,790 at the end of the current fiscal year. The aggregate net increase in fund balance during the current year was \$190,163. Special assessment revenues account for approximately 65 percent of total revenues in the NPDES funds and can fluctuate from year to year based on economic activity in the County of Riverside and property foreclosures within each watershed boundary. Fluctuation in special assessment revenues could positively or negatively impact growth in total fund balance. Key factors in the net increase are as follows:

♦ NPDES Whitewater reported a fund balance of \$2,826,340 at the end of the current fiscal year. The net increase in fund balance during the current fiscal year was \$213,408. Special assessment revenues account for approximately 46 percent of total revenues in this NPDES fund.

In comparison to the prior year, the positive change in fund balance reflects a decrease of approximately 13 percent (\$32,484). Overall revenues decreased (\$86,781) due to decreases in special assessments revenue (\$10,690), contributions from other governmental agencies (\$30,787), and investment earnings (\$45,304). Additionally, expenditures decreased (\$53,481) due to decreases in salaries and benefits compared to the prior fiscal year.

♦ NPDES Santa Ana reported a fund balance of \$5,210,359 at the end of the current fiscal year. The net decrease in fund balance during the current fiscal year was \$251,058. Special assessment revenues account for approximately 103 percent of total revenues in this NPDES fund.

In comparison to the prior year, the negative change in fund balance reflects a decrease of approximately 2,363 percent (\$240,863). Overall revenues decreased (\$25,214) as a result of the decrease in investment earnings (\$84,170). This decrease was partially offset by the increase in special assessments revenue (\$58,956). Additionally, expenditures increased (\$218,062) due largely in part to increased costs for bioassessment monitoring and general lab analytical services for the Santa Ana Watershed region.

♦ NPDES Santa Margarita reported a fund balance of \$1,981,091 at the end of the current fiscal year. The net increase in fund balance during the current fiscal year was \$227,813. Special assessment revenues account for approximately 26 percent of total revenues in this NPDES fund.

In comparison to the prior year, the positive change in fund balance reflects an increase of approximately 558 percent (\$193,207). Overall revenues increased (\$113,732) as a result of an increase in contributions from other agencies (\$149,429). This increase offset the decreases in special assessments revenue (\$1,086) and investment earnings (\$34,611). Additionally, expenditures decreased (\$81,062) due to decreased professional service costs compared to the prior fiscal year.

The nonmajor funds, Flood Control Capital Project Fund and Zone 4 Debt Service Fund, reported an aggregate total fund balance of \$21,915 at the end of the current fiscal year. The aggregate net increase in fund balance during the current year in was \$177. Transfers in are used to offset budgeted capital outlay and debt service costs incurred in any given fiscal year.

Proprietary funds. The District's proprietary funds provide the same type of information found in the government-wide statements, but in more detail.

Unrestricted net position at the end of the year for Subdivision Operations amounted to a deficit of (\$1,745,213) while Photogrammetry Operations reported an unrestricted net position of \$202,560 and the Encroachment Permit Operations reported \$67,326. The total increase in net position for Subdivision Operations was \$438,287. The total decrease in net position for Photogrammetry Operations was \$148,432 and the total decrease for Encroachment Permit Operations was \$22,413. Other factors concerning the finances of these three funds have already been addressed in the discussion of the District's business-type activities.

General Fund Budgetary Highlights

During the year there were no adjustments made between the original and final amended budget increasing general fund appropriations.

Significant budgetary variances between the final amended budget and the actual amounts are a result of the following components:

- Budgetary estimates for expenditures exceeded total actual expenditures by \$1,690,817. This variance was due primarily to costs budgeted for building improvements to District grounds that were not expended during the fiscal year. There was an 8 percent decrease in actual expenditures from the prior year.
- ♦ Estimated revenues exceeded total actual revenues, including transfers in, by \$25,946. This variance was due to an unrealized loss in investment earnings during the fiscal year. Budgeted charges for services revenues decreased by 3 percent from the prior year due primarily to decreases in anticipated revenue from construction inspection accounts.

Capital Assets and Debt Administration

Capital assets. The District's net investment in capital assets for its governmental and business-type activities as of June 30, 2022, amounts to \$1,106,748,667 (net of accumulated depreciation). This investment of capital assets includes land and easements, construction in progress, infrastructure, land improvements, building and improvements and equipment. The total increase in the District's investment in capital assets for the current fiscal year was 4 percent.

Major capital asset events during the current fiscal year included the following:

- ♦ Capital assets (infrastructure and land) were donated to the District as a result of prior year development within the County; donated infrastructure and land at the end of the current fiscal year was \$32,315,484.
- A variety of flood control construction projects which began in the prior fiscal year were completed and new construction began; construction in progress at the end of the current fiscal year was \$37,761,575.

Additional information on the District's capital assets can be found in Note 4 on pages 41-42 of this report.

Long-term debt. The District Act limits the amount of general obligation debt the District may issue to the lesser of 3.75 percent of assessed valuation or \$21 million. The District had \$7,880,000 in negotiable promissory notes outstanding at the end of the current fiscal year to finance the construction certain flood control facilities located in Zone 4 of the District, including but not limited to the construction of the Romoland MDP Line A, Stage 4 project. The principal of, premium, and interest on the promissory notes are payable from the revenues and taxes of Zone 4. Additional information on the District's promissory notes can be found in Note 5 on page 43 of this report.

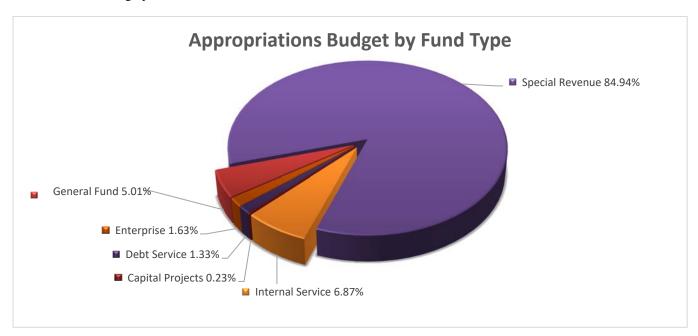

Economic Factors and Next Year's Budgets and Rates

The District's principal source of general-purpose revenue is ad valorem property taxes. The estimated property tax revenue for fiscal year 2022-23 is \$88.3 million, an increase of \$4.7 million from the District's fiscal year 2021-22 legally adopted budget. The County Assessor is projecting a 5.0 percent growth in the County assessment valuation for fiscal year 2022-23. The District is taking a conservative approach and is estimating an increase of 4.0 percent in tax revenues for fiscal year 2022-23 based on the County Assessor projections and on actual tax revenue receipted over the last three years.

The District estimates total revenue of \$116.6 million for fiscal year 2022-23, a decrease of \$865,000 from fiscal year 2021-22. The revenue in the general fund is projected to increase by \$609,000. The special revenue funds revenue is projected to decrease by \$7,000 due to anticipated decreases in Special Assessments revenue within the NPDES Santa Ana Watershed fund as well as anticipated decreases in contributions from other governmental agencies within the NPDES Santa Margarita Watershed fund. Projected revenue allocations to the capital project fund for capital improvements is increasing by \$125,000 in fiscal year 2022-23 as a result of inflation. Fee revenue for the enterprise funds is projected to increase by \$658,000 as a result of anticipated increases in revenue for photogrammetry fees collected in the Photogrammetry Operations fund, plan check fees in the Subdivision Operations fund, and inspection fees collected in the Encroachment Permits fund.

The District's appropriation budget for all funds totals \$212.9 million for fiscal year 2022-23, an increase of \$15.2 million from the District's fiscal year 2021-22 adopted budget. The Zone funds as a group have appropriations of \$173.3 million for fiscal year 2022-23, or 81 percent of the District's total appropriations. This represents a net increase of \$9.9 million from the prior year's budgeted appropriations primarily due to an increase in budgeted salaries, benefits, infrastructure, services, and supplies for District Led Projects within Zone 7.

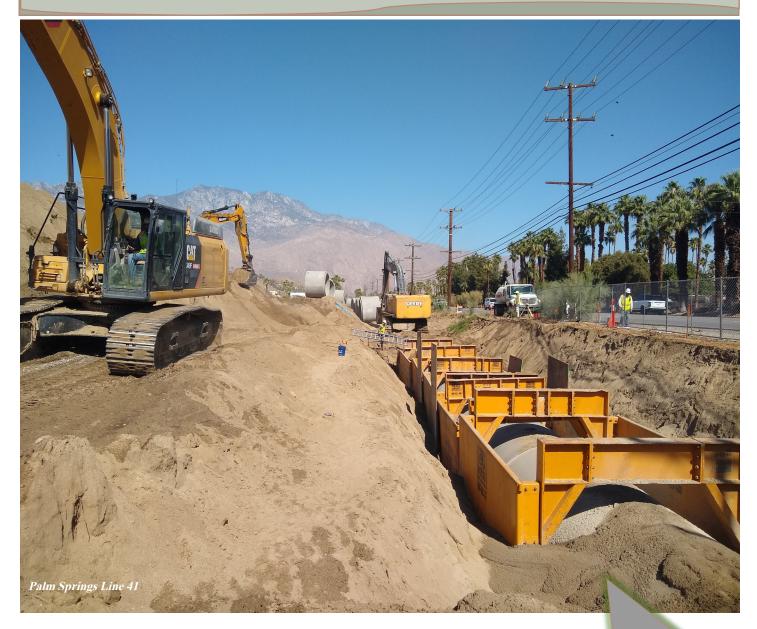

Appropriations are projected to increase by \$2.0 million in the general fund. Enterprise fund appropriations are expected to increase by \$844,000 based on increased costs for salaries, services, and supplies. The appropriation budget for fiscal year 2022-23 is reflected in the graph below.

Requests for Information

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Chief of Finance, Riverside County Flood Control and Water Conservation District, 1995 Market Street, Riverside, CA 92501.

Riverside County Flood Control and Water Conservation District Reconciliation of the Governmental Funds Balance Sheet to the Government-wide Statement of Net Position - Governmental Activities

June 30, 2022

| Fund Balances - Total Governmental Funds (Page 20) | | \$ 287,756,485 |
|---|--|---------------------|
| Amounts reported for governmental activities in the statement of Net Position are different because: | | |
| Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental funds, net of \$5,759,200 reported in Internal Service Funds. | | 1,100,932,930 |
| Internal service funds are used by management to charge the costs of hydrology services, garage, project maintenance, and data processing to individual funds. The assets and liabilities of these funds are included in governmental activities in the statement of Net Position, net of \$89,654 allocated to business-type activities. | | 10.074.004 |
| | | 10,276,204 |
| Other long-term assets are not available to pay for current period expenditures and, therefore, are reported as unavailable revenue in the governmental funds balance sheet and should be recognized in the government-wide statement of activities as revenue thereby increasing unrestricted net position in the government-wide statement of Net Position. | | 868,727 |
| Deferred inflows and outflows of resources related to pension and OPEB activity are not reported in the governmental funds but are included in the statement of Net Position. | | |
| Deferred outflows of resources Deferred inflows of resources | 23,398,933 (17,181,090) | 6,217,843 |
| Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the governmental funds. | | |
| Net pension liability Net OPEB liability Promissory notes, including unamortized premiums Compensated absences, net of \$162,786 reported in internal service funds Accrued interest payable | (32,458,438) (1,409,255) (8,606,988) (4,195,393) (128,000) | (46,798,074) |
| Net Position of Governmental Activities (Page 15) | | \$ 1,359,254,115 |

Riverside County Flood Control and Water Conservation District Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Government-wide Statement of Activities - Governmental Activities

For the Year Ended June 30, 2022

| Net Change in Fund Balances - Total Governmental Funds (Page 24) | | \$ 13,133,782 |
|---|---|------------------|
| Amounts reported for governmental activities in the statement of activities are different because: | | |
| Governmental funds report capital outlay as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and are charged to depreciation expense. | | |
| Expenditures for capital assets, net of \$1,839,138 reported in Internal Service Funds Donation of Capital Assets Less current year depreciation, net of (\$1,122,619) reported in Internal Service Funds Loss on Disposal | 20,706,521 32,315,484 (12,652,300) (241,648) | 40,128,057 |
| Earned but unavailable revenues reported in the governmental funds balance sheet as deferred inflows of resources should be recognized in the government-wide statement of activities as revenue regardless of availability. | | |
| Change in unavailable revenue | (157,179) | (157,179) |
| Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental fund | | |
| OPEB expense Pension (expense) / credit Change in compensated absences, net of (\$25,691) reported in Internal Service Func Amortization of bond premium Interest Expense | (520,568) 17,757,976 (541,187) 242,328 39,667 | 16,978,216 |
| Internal service funds are used by management to charge the costs of certain activities to individual funds. The change in Net Position of certain internal service funds is reported with governmental activities, net of (\$3,020) allocated to business-type activities. | | 175,900 |
| The repayment of principal reduces long-term liabilities in the governmental activities statement of net position. | | 2,380,000 |
| Change in Net Position of Governmental Activities (Page 17) | | \$ 72,638,776 |

For the Year Ended June 30, 2022

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A) Reporting Entity

The Riverside County Flood Control and Water Conservation District (the District) was created by an act of the State Legislature on July 7, 1945 to provide financing for the construction and maintenance of flood control facilities. The governing board of the District consists of the same five members of the Board of Supervisors as Riverside County, California, and the Board has the authority to impose its will on the District. Therefore, the District is considered to be a component unit of the County for financial reporting purposes. As required by accounting principles generally accepted in the United States of America, these financial statements present all the fund types of the District.

Riverside County Infrastructure Financing Authority (IFA). The Board is the governing body of the IFA and the County is responsible for all its financial debt. The IFA is a joint exercise of powers authority, duly organized and existing under and pursuant to that certain Joint Exercise of Powers Agreement dated September 15, 2015 by and between the County of Riverside and the District. The IFA is authorized and empowered to issue bonds for the purpose of financing and refinancing public capital improvements of the County.

B) Basis of Presentation

Government-wide Financial Statements

The statement of net position and statement of activities display information about the District's activities. These statements include the financial activities of the District. It is the District's policy to make eliminations to minimize the double counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the District. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely, to a significant extent, on fees charged to external parties.

The statement of activities presents a comparison between program expenses and program revenues for each segment of the business-type activities of the District and for each function of the District's governmental activities. Program expenses include such direct expenses that are specifically associated with a program or function and therefore, are clearly identifiable to a particular function. Program revenues include 1) charges paid by the recipients of goods or services offered by the programs and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented instead as general revenues.

When an expense is incurred for a purpose for which both restricted and unrestricted net position are available, management has discretion as to which resources apply. It is the District's policy to use restricted resources before unrestricted resources.

C) Fund Financial Statements

The fund financial statements provide information about the District's funds. Separate statements for each fund category – *governmental* and *proprietary* - are presented. The emphasis of the fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are separately aggregated and reported as nonmajor funds.

Proprietary fund *operating revenues*, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. *Nonoperating revenues*, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

For the Year Ended June 30, 2022

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

C) Fund Financial Statements - Continued

The District reports the following as major governmental funds:

- The General Fund is used to account for all revenues and expenditures necessary to carry out basic governmental activities of the District that are not accounted for through other funds. For the District, the General Fund includes such activities as general government and capital outlay.
- ♦ Zones 1 through 7 are special revenue funds established to account for revenues and expenditures related to providing flood control in each geographical zone. These funds are financed primarily by ad valorem property taxes, developer fees, local cooperative agreements, federal monies, and monies from other local governments.
- ♦ NPDES Whitewater is a special revenue fund used to account for revenues and expenditures related to the National Pollutant Discharge Elimination System (NPDES) in the Whitewater assessment area. Primarily the benefit assessment area finances this fund.
- ♦ NPDES Santa Ana is a special revenue fund used to account for revenues and expenditures related to the National Pollutant Discharge Elimination System (NPDES) in the Santa Ana assessment area. Primarily the benefit assessment area finances this fund.
- NPDES Santa Margarita is a special revenue fund used to account for revenues and expenditures related to the National Pollutant Discharge Elimination System (NPDES) in the Santa Margarita assessment area. Primarily the benefit assessment area finances this fund.
- ♦ Data from the District's remaining two governmental funds are combined into a single aggregated presentation as *Other Governmental Funds*. Individual fund data for both of these nonmajor governmental funds is provided in the form of combining statements in the supplementary information section.

The District reports the following major enterprise fund:

♦ The Subdivision Operations Fund accounts for various services needed by developers in the construction of projects within the County. Revenues are primarily for charges for services.

The District reports the following additional fund types:

♦ Internal Service Funds account for the District's Hydrology Services, Garage, Project Maintenance, and Data Processing, on a cost-reimbursement basis.

D) Basis of Accounting and Measurement Focus

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, special assessments, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied.

Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

For the Year Ended June 30, 2022

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

D) Basis of Accounting - Continued

Governmental fund type financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues and other governmental fund type financial resources are recognized when they become susceptible to accrual - that is, when they become both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Property taxes, contracts and other nonexchange transactions are considered available and are accrued when received within sixty days after fiscal year-end. Revenue received from expenditure driven (cost-reimbursement) grants, as defined by GASB Statement No. 33, Accounting and Financial Reporting for Nonexchange Transactions, are considered available and accrued if expected to be received within twelve months after fiscal year-end.

E) Cash and Investments and Cash and Investments with Fiscal Agents

The District's cash from operations is deposited in the County Treasury. The County pools its funds with other government agencies in the County and invests them as prescribed by the California Government Code and the County of Riverside's Investment Policy. The District's deposits in the County pool may be accessed at any time. The District is allocated interest income on monies deposited with the County based on its proportional share of the pooled investments. All pooled investments and investments with fiscal agent are carried at fair value. The fair value of participants' positions in the pool is not the same as the value of the pooled shares. Restricted cash of \$3,297,356 and \$6,702,952, for governmental and business-type activities respectively, consists mostly of developer and other agency deposits for specific purposes.

In December 1994, the Board of Supervisors created an Investment Oversight Committee to work with the County Treasurer to oversee County investment policies, to include the District. The Committee reviews the County's investment strategy and the status of the County's investments and reports its finding to the Board. The Investment Oversight Committee has reviewed and approved investment policies for funds held outside the County Treasury.

For purposes of the statement of cash flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

F) Deferred Outflows/Inflows of Resources

The statement of financial position reports a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net assests that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/ expenditure) until then. The District recognizes deferred outflows of resources on the government-wide financial statements in relation to pensions and other postemployment benefits (OPEB).

The statement of financial position reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net assets that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The District reports an item under this category on the governmental funds balance sheet, under the modified accrual basis of accounting, labeled *unavailable revenue* from two sources: property taxes and special assessments expected to be received in a future period. The District also recognizes deferred inflows of resources on the government-wide financial statements in relation to pensions, other postemployment benefits (OPEB) and leases.

For the Year Ended June 30, 2022

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

G) Property Taxes

Under California law, property taxes are assessed and collected by counties for up to 1 percent of assessed value, plus other increases as approved by affected voters. Property tax revenues are pooled and then allocated based on assessed valuation. Property taxes on the secured rolls are payable in two installments, November 1 and February 1. Property tax payments become delinquent after December 10 and April 10, respectively.

Remittance of property taxes to the District is accounted for within each appropriate fund. Under the Teeter Plan, the District receives its current-year tax from the County without regard for the delinquency factors.

Property taxes are assessed and collected each fiscal year according to the following property tax calendar:

H) Inventories

Inventories, which consist of materials and supplies held for consumption, are valued at the lower of cost (on a first-in, first-out basis) or market in the proprietary funds. Inventories for all governmental funds are valued at average cost. The consumption method is used to account for inventories. Under the consumption method, inventories are recorded as expenditures when consumed rather than when purchased. Material amounts of inventory are reported as assets of the respective fund.

I) Capital Assets

Capital assets, which include property (e.g. land and easements), plant (e.g. buildings, improvements), equipment (e.g. vehicles, computers, office equipment) and infrastructure (e.g. drainage systems, flood control, and similar structures), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the proprietary funds statement of net position. Capital assets are recorded at historical cost or estimated cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value, rather than fair value, at the date of donation. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at acquisition value rather than fair value.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. The capitalization thresholds are as follows: \$5,000 for equipment, \$1 dollar for buildings (structures), land and land improvements, and \$150,000 for infrastructure.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

| Infrastructure: | Flood Channels and Levees | 99 years |
|-----------------|---|----------|
| | Dams/Basins | 99 years |
| | Storm Drains | 65 years |
| Structure and | Buildings | 50 years |
| Improvements: | Building improvements | 50 years |
| Equipment: | Autos, personal computers and equipment valued at less than \$25,000 | 3 years |
| | Computer items, small trucks and equipment valued between \$25,000 and \$75,000 | 5 years |
| | Large trucks and equipment valued at greater than \$75,000 | 7 years |

For the Year Ended June 30, 2022

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

J) Compensated Absences

Permanent District employees earn from 10 to 20 vacation days annually, depending upon their length of employment, and 12 sick days a year. Employees can carry forward up to a maximum of three times their annual vacation accrual and an unlimited number of sick days for use in subsequent years.

Upon termination or retirement, District employees are entitled to receive compensation at their current salary for all unused vacation time. If an employee retires from the District with at least five years of service, the employee is entitled to receive from 10 percent to 50 percent of the value of any unused sick leave up to 120 days.

K) Long-term Debt

The District reports long-term debt of governmental funds at face value in the government-wide statement of net position. Certain other governmental fund obligations not expected to be financed with current available financial resources are also reported in the government-wide statement of net position. Long-term debt and other obligations financed by the proprietary fund types are reported as liabilities in the appropriate proprietary fund types and in the government-wide statement of net position. Governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued. The premiums, discounts, and deferred gains and losses are reported in the government-wide statement of net position and are amortized over the life of the debt.

L) Operating/Nonoperating Revenues and Expenses

The District defines its operating revenues as revenues derived from charges for services. All other revenue that is not derived directly from charges for services, including interest income and gain/loss on sale of assets, is classified as nonoperating in the accompanying statement of revenues, expenses, and changes in fund net position.

Consistent with the treatment in the accompanying statement of cash flows, all expenses, with the exception of interest expense, are treated as operating expenses on the accompanying statement of revenues, expenses and changes in fund net position.

M) Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

N) Interfund Transactions

Interfund transactions are reflected as loans, provided services, reimbursements or transfers. Loans are reported as receivables and payables as appropriate, are subject to elimination upon consolidation and are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances".

Advances between funds, as reported in the fund financial statements, are offset by a nonspendable fund balance in applicable governmental funds to indicate that they are not available for appropriation and are not available financial resources.

Provided services, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide presentation.

For the Year Ended June 30, 2022

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

O) Net Position/Fund Balances

The government-wide and business-type activities fund financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted and unrestricted.

- Net Investment in Capital Assets This category reports all capital assets, including infrastructure, into one component of net position. Accumulated depreciation reduces the balance in this category. The amount is further reduced by the associated debts, net of unspent debt proceeds.
- Restricted Net Position This category presents external restrictions imposed by creditors, grantors, contributors
 or laws or regulations of other governments and restrictions imposed by law through constitutional provisions
 or enabling legislation.
- Unrestricted Net Position This category represents the net position of the District, not restricted for any project or other purpose.

When expenses are incurred for purposes of which both restricted and unrestricted net positions are available, the District's policy is to apply restricted net position first, then unrestricted net position as needed.

In accordance with Government Accounting Standards Board Statement No. 54 - Fund Balance Reporting and Governmental Fund Type Definitions and the District's Fiscal Policy F2, Fund Balance Policy, the District classifies governmental fund balances as follows:

- Nonspendable includes amounts either not in spendable form, or legally or contractually required to be maintained intact.
- Restricted constraints placed on the use of amounts are either externally imposed by creditors, grantors, contributors, or laws and regulations of other governments; or imposed by law through constitutional provisions or enabling legislation.
- Committed includes amount committed for specific purposes by the Board of Supervisors, the District's highest level of decision making authority, by adopting an ordinance prior to the end of the fiscal year to commit fund balance. Amounts classified as "Committed" are not subject to legal enforceability like restricted fund balance; however, those amounts cannot be used for any other purpose unless the Board of Supervisors removes or changes the limitation by taking the same form of action it employed to previously impose the limitation. Action to constrain resources must occur prior to year-end; however, the amount can be determined in the subsequent year.
- Assigned includes amounts, intended by the District, to be used for specific purposes. Amounts are neither restricted nor limited. The Board of Supervisors has, by resolution, delegated the authority to assign amounts to be used for specific purposes to the Finance Director and District management for the purpose of reporting these amounts in the financial statements.
- Unassigned includes any remaining amounts after classifying fund balances according to the fund balance categories of nonspendable, restricted, committed and assigned. The general fund is the only governmental fund that reports a positive amount of unassigned fund balance. However, if a governmental fund other than the general fund were to have nonspendable, restricted, and committed fund balance in excess of total fund balance, the difference would be reported as negative unassigned fund balance.

For the Year Ended June 30, 2022

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Fund Balance Spending Order

Unless legal requirements disallow it, the District will spend the most restricted dollars before less restricted in the following order: (1) Nonspendable (if the funds become spendable), (2) Restricted, (3) Committed, (4) Assigned, (5) Unassigned.

Minimum Fund Balance Policy for Governmental Funds

The following minimum fund balance guidelines for governmental funds have been established by the District's Fiscal Policy F2, Fund Balance Policy, to ensure a sufficient level of fund balance is maintained for unanticipated expenditures, delays in revenue receipt, or revenue shortfalls:

♦ Unrestricted Fund Balance - General Fund

The District shall achieve an unrestricted fund balance in its General Fund equal to a minimum of 66 percent of General Fund expenditures. The District will annually evaluate the minimum fund balance provisions and make adjustments according to an assessment of current events and circumstances as well as changing forecasts, projections and other related risks.

The District has established a contingency account and budgets the minimum assigned fund balance in the General Fund with the recommended budget submitted to the Board of Supervisors for approval each fiscal year. Should the minimum fund balance drop below the prescribed level, the District will develop a plan to replenish the minimum fund balance within two years and include the plan with the recommended budget submitted to the Board of Supervisors for approval in the following budget year.

P) Developer And Other Agency Deposits

Developer and other agency deposits are deposits made by developers and other governmental agencies to support services or work performed by the District on behalf of said developers and governmental agencies. Revenue is recognized when it is earned and the liability is decreased accordingly.

Q) Pensions

The pension expense is for the measurement period of 2020-21 and the net pension liability is measured as of June 30, 2021. Liabilities are based on the results of the actuarial calculations performed as of June 30, 2020 and were rolled forward to June 30, 2021.

For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Plan and addition to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the CalPERS Financial Office. For this purpose, benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms.

Investments are reported at fair value. Projected earnings on pension investments are recognized as a component of pension expense. Differences between projected and actual investment earnings are reported as deferred inflows of resources or deferred outflows of resources and amortized as a component of pension expense on a closed basis over a five year period.

Other gains and losses related to changes in total pension liability and fiduciary net position are recognized as pension expenses over time. They are amortized straight-line over the average expected remaining service lives of all members that are provided with benefits as of the beginning of the measurement period.

For the Year Ended June 30, 2022

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

R) Other Postemployment Benefits (OPEB)

For the purposes of measuring the net OPEB liability, deferred outflows or resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date July 1, 2021 Measurement Date June 30, 2021

Measurement Period July 1, 2020 to June 30, 2021

S) Leases

The District is a lessor for long-term noncancelable leases of land. The District recognizes a lease receivable and a deferred inflow of resources in the government-wide and governmental funds financial statements. At the commencement of a lease, the District measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently. The lease receivable is reduced by the principal portion of the lease payment received. The deferred inflow of resources is measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

The IRS applicable federal rate at the time of lease commencement is used as the discount rate to measure the present value of the lease receivable. The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The District monitors changes in circumstances that would require a remeasurement of its lease, and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable

T) Implementation of Governmental Accounting Standards Board (GASB) Pronouncements

Governmental Accounting Standards Board Statement No. 94

In March of 2020, GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. This Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs) and availability payment arrangements (APAs). Statement No. 94 is effective for reporting periods beginning after June 15, 2022. The District has not determined its effect on the District's financial statements.

Governmental Accounting Standards Board Statement No. 96

In May of 2020, GASB issued Statement No. 96, Subscription-Based Information Technology Arrangements. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). Statement No. 96 is effective for reporting periods beginning after June 15, 2022. The District has not determined its effect on the District's financial statements.

For the Year Ended June 30, 2022

2) CASH AND INVESTMENTS

Cash and investments totaled \$310,962,518 as of June 30, 2022. Each fund's portion of this total is reflected in the financial statement accounts entitled "Cash and Investments", "Cash and Cash Equivalents", and "Restricted Cash".

All District cash and investments are on deposit with the County Treasurer with the exception of imprest cash on hand.

The County Treasurer maintains the County's Pooled Investment Fund pursuant to the California Government Code and the County Treasurer's Statement of Investment Policy. Portfolio income, including gains and losses, are distributed quarterly. All investment income is distributed prorata based upon each participant's average daily cash balance for the calendar year except for specific investments in which the interest income is to be credited directly to the fund from which the investment was made.

Investments related to the County's Pooled Investment Fund are restricted to those authorized in the California Government Code and the County Treasurer's Statement of Investment Policy. Investments and related credit, custodial credit, concentration of credit, interest rate and foreign currency risks associated with the County's Pooled Investment Funds are disclosed in Riverside County's basic financial statements.

The primary objectives of the Treasurer's investment of public funds are noted in order of priority as follows: to safeguard investment principal, to maintain sufficient liquidity within the portfolio to meet daily cash flow requirements, and to achieve a reasonable rate of return or yield on the portfolio.

Total District cash and investments at fair value are reported as follows:

Cash and Investments:

| Cash With and Pooled by the County Treasury | \$ 310,961,918 |
|---|-------------------|
| Imprest Cash Held at the District | 600 |
| Total Cash and Investments | \$ 310,962,518 |

Total District cash and investments at fair value are reported by the following activities:

| Cash and Investments Summary: | |
|--------------------------------|-------------------|
| Total Governmental Activities | \$ 303,567,844 |
| Total Business-type Activities | 7,394,674 |
| Total Cash and Investments | \$ 310,962,518 |

For the Year Ended June 30, 2022

A) Investments

Investments are governed by the District's Investment Policy Statement, the California Government Code, the particular bond indenture, Board of Supervisors' Resolution, and the Fiscal Agent agreement.

State statutes and the District's Investment Policy Statement authorize the District to invest in the following investment categories:

- Obligations of the U.S. Treasury Notes
- ♦ Federal agencies
- ♦ A U.S. Government-sponsored enterprise
- ♦ The State of California
- ♦ Local government agencies
- ◆ Commercial paper rated A-1 by Standard & Poor's Corporation or P-1 by Moody's Commercial Paper Record
- ♦ Bankers' acceptances
- Repurchase agreements
- ♦ Reverse repurchase agreements
- ♦ Guaranteed investment contracts
- Bond anticipation notes
- ♦ Corporate bonds
- Negotiable certificates of deposits issued by national and State licensed banks, chartered banks, or Federal/State savings and loan associations.

Investments Authorized by Debt Agreements. Investments of debt proceeds held by bond trustee (Fiscal Agent) are governed by provisions of the debt agreements, rather than the general provisions of the California Government Code or the District's investment policy.

B) Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates that will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates.

The County Treasurer manages exposure to declines in the market value of the Pooled Investment fund portfolio by maintaining a weighted average days to maturity (WAM) of less than 541 days or 1.5 years in accordance with the County Treasurer's Statement of Investment Policy. As of June 30, 2022, the WAM for the Pooled Investment fund portfolio was 1.19 years. Additionally, the County Treasurer maintains at least 40 percent of the portfolio's total value in securities having maturities of 1 year or less to provide sufficient liquidity to meet daily expenditure requirements. Investments held by Fiscal Agents have a maturity of 1 year or less.

As noted in the County Treasurer's Investment Fund Monthly Report for June 2022, the Pooled Investment fund was rated: Aaa-bf by Moody's Investor Service and AAAf/S1 by Fitch Ratings.

For the Year Ended June 30, 2022

C) Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The California Government Code and the District's Investment Policy Statement do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments, other than the following provisions for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The fair value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits.

D) Credit Risk

The District's Investment Policy Statement sets forth the minimum acceptable credit ratings for investments from the following nationally recognized statistical rating organizations. For an issuer of short-term debt, the rating must be no less than A-1 (Standard & Poor's) and P-1 (Moody's). For an issuer of long-term debt, the rating must be no less than an "A". At June 30, 2022, the credit rating of the District's investments pursuant to the District's Investment Policy Statement was AA for Standard & Poor's.

E) Concentration of Credit Risk

As previously stated, the District's Investment Policy Statement is limited solely to the proceeds of bonds issued by the District and therefore does not address limitations with regards to pool funds. At June 30, 2022, there were no investments that constitute a concentration of credit risk.

For the Year Ended June 30, 2022

3) INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The amounts due to/from other funds as of June 30, 2022 are as follows:

| Receivable Fund | Payable Fund | A | mount |
|-------------------------------|---------------------------|----|--------|
| Internal Service Funds | General Fund | \$ | 5,327 |
| | Zone 1 | | 3,987 |
| | Zone 2 | | 2,575 |
| | Zone 3 | | 725 |
| | Zone 4 | | 3,843 |
| | Zone 5 | | 2,414 |
| | Zone 6 | | 854 |
| | Zone 7 | | 2,475 |
| | NPDES Whitewater | | 111 |
| | NPDES Santa Ana | | 577 |
| | NPDES Santa Margarita | | 225 |
| | Subdivision Operations | | 517 |
| | Nonmajor Enterprise Funds | | 302 |
| | Internal Service Funds | | 1,151 |
| Total Due To/From Other Funds | | \$ | 25,083 |

These interfund balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Transfers

Transfers are indicative of funding for capital projects, lease payments or debt service, subsidies of various District operations and re-allocations of special revenues. The following schedule briefly summarizes the District's transfer activity:

| Transfer From | Transfer To | Amount | | Purpose |
|----------------------------|--------------------------|--------|-----------|-------------------------------|
| Operating or Debt Subsidy: | | | | |
| Zone 1 | General Fund | \$ | 55,370 | Funded Leave Balance |
| Zone 2 | General Fund | | 55,883 | Funded Leave Balance |
| Zone 3 | General Fund | | 11,536 | Funded Leave Balance |
| Zone 4 | General Fund | | 87,387 | Funded Leave Balance |
| Zone 5 | General Fund | | 18,608 | Funded Leave Balance |
| Zone 6 | General Fund | | 25,099 | Funded Leave Balance |
| Zone 7 | General Fund | | 35,710 | Funded Leave Balance |
| NPDES Whitewater | General Fund | | 3,936 | Funded Leave Balance |
| NPDES Santa Ana | General Fund | | 20,077 | Funded Leave Balance |
| NPDES Santa Margarita | General Fund | | 13,304 | Funded Leave Balance |
| Zone 5 | General Fund | | 21,442 | Transfer of Cash for Services |
| Zone 7 | Subdivision Operations | | 2,255 | Transfer of Cash for Services |
| | | | | Transfer of Cash to Process |
| Zone 4 | Other Governmental Funds | | 2,823,500 | Debt Service Payment |
| Total Transfers | | \$ | 3,174,107 | |

The internal balances on the government-wide statement of net position are created by the allocation of internal service fund activity to business-type activities.

For the Year Ended June 30, 2022

4) CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2022 was as follows:

| | Beginning Balance | Additions Retirements | | Transfers | Ending Balance |
|---|--------------------------|-----------------------|--------------|--------------|--------------------------|
| Governmental Activities: | | | | | |
| Capital Assets, Nondepreciable: | | | | | |
| Land and Easements | \$ 290,807,217 | \$ 5,023,410 | \$ (184,838) | \$ - | \$ 295,645,789 |
| Construction in Progress | 41,145,217 | 19,211,558 | | (22,595,200) | 37,761,575 |
| Total Capital Assets, Nondepreciable | 331,952,434 | 24,234,968 | (184,838) | (22,595,200) | 333,407,364 |
| Capital Assets, Depreciable | | | | | |
| Infrastructure | 927,036,749 | 28,971,875 | - | 22,595,200 | 978,603,824 |

| Business-type Activities Capital Assets, Net | \$ 110,768 | \$ (7,936) | \$ (46,295) | \$ - | \$ 56,537 |

For the Year Ended June 30, 2022

4) CAPITAL ASSETS - Continued

Internal Service Funds predominantly serve the governmental funds. Accordingly, their capital assets are included within governmental activities. Capital asset activity for Internal Service Funds for the year ended June 30, 2022 was as follows:

| | Begin: Balaı | U | Additions | | Retirements | | | Ending Balance |
|---|-----------------|--------|-----------|-------------|-------------|---------|------------|-------------------|
| Internal Service Funds: | | _ | | | | | | |
| Capital Assets, Depreciable | | | | | | | | |
| Buildings and Improvements | \$ 1 | 2,181 | \$ | - | \$ | - | \$ | 12,181 |
| Equipment | 17,230,924 | | | 1,839,138 | (2,142,776) | | | 16,927,286 |
| Total Capital Assets, Depreciable | 17,243,105 | | | 1,839,138 | (2,142,776) | | 16,939,467 | |
| Less Accumulated Depreciation for: | | | | | | | | |
| Buildings and Improvements | (| 7,431) | | (243) | | - | | (7,674) |
| Equipment | (12,19 | 0,834) | | (1,122,376) | 2,1 | 40,617 | | (11,172,593) |
| Total Accumulated Depreciation | (12,19 | 8,265) | | (1,122,619) | 2,1 | 40,617 | | (11,180,267) |
| Internal Service Funds Capital Assets, Net | \$ 5,04 | 14,840 | \$ | 716,519 | \$ | (2,159) | \$ | 5,759,200 |

Depreciation expense was charged to governmental functions as follows:

| General Government | \$ 320,396 |
|--|------------------|
| Public Ways and Facilities | 12,573,625 |
| Depreciation on capital assets held by the District's internal service funds is charged to the | |
| various functions based on their usage of the assets. | 1,122,619 |
| Total Depreciation Expense - Governmental Functions | \$ 14,016,640 |

Depreciation expense was charged to the business-type functions as follows:

| Other Enterprise Funds | \$ 7,936 |
|--|-------------|
| Total Depreciation Expense - Business-type Functions | \$ 7,936 |

Replacement of Capital Assets

In accordance with District rate methodology, a balance of resources has been accumulated in the proprietary fund financial statements for the replacement of District capital assets. As of June 30, 2022, the balance of resources amounted to \$2,000,000 and is reflected in Unrestricted Net Position.

For the Year Ended June 30, 2022

5) LONG-TERM OBLIGATIONS

The following is a summary of long-term liability transactions for the year ended June 30, 2022:

| | Beginning Balance | Additions | Retirements | Ending Balance | Amounts Due Within One Year |
|--|----------------------|---------------|-----------------|-------------------|-----------------------------|
| Governmental activities: | | | | | |
| Compensated Absences | \$ 3,791,301 | \$ 846,998 | \$ (280,120) | \$ 4,358,179 | \$ 676,560 |
| Promissory Note | 10,260,000 | - | (2,380,000) | 7,880,000 | 2,500,000 |
| Promissory Note Premium | 969,316 | - | (242,328) | 726,988 | - |
| Net OPEB Liability | 2,129,519 | 1,807,533 | (2,527,797) | 1,409,255 | - |
| Net Pension Liabilities | 68,654,734 | 18,285,826 | (54,482,122) | 32,458,438 | - |
| Total Governmental Activities - Long-term Liabilities | \$ 85,804,870 | \$ 20,940,357 | \$ (59,912,367) | \$ 46,832,860 | \$ 3,176,560 |
| Business-type activities: | \$ 59,039 | \$ 13.740 | \$ - | \$ 72,779 | \$ 11,298 |
| Compensated Absences Net Pension Liabilities | 2,311,493 | 272,901 | (813,100) | 1,771,294 | \$ 11,298 |
| Total Business- type Activities - Long-term Liabilities | \$ 2,370,532 | \$ 286,641 | \$ (813,100) | \$ 1,844,073 | \$ 11,298 |

For the governmental activities, compensated absences, OPEB liability and net pension liabilities are generally liquidated by the general fund.

Promissory Notes

On June 25, 2015, the District issued the Zone 4 2015 Negotiable Promissory Notes to fund certain flood control facilities located in Zone 4 of the District, including but not limited to construction of the Romoland MDP Lina A, Stage 4 for Zone 4 and certain expenses incidental thereto. The principal and interest on the Notes are payable from the revenues and taxes of Zone 4 ("Zone 4 Revenues"). The Notes are further secured by a first lien and specific pledge of the Zone 4 Revenues as the Zone 4 Revenues are received, except that any Zone 4 Revenues not needed for debt services on the Notes in any fiscal year will be available to the District for any lawful purpose. The Notes are not subject to optional redemption prior to maturity.

The Promissory Notes were issued in aggregate principal amount of \$21,000,000 plus an original issue premium \$2,423,284. The Notes are to be repaid at an interest rate between 2.0% and 5.0%. As of June 30, 2022, the outstanding notes payable totaled \$7,880,000 and the unamortized premium amounted to \$726,988

The annual debt service repayment schedule for the Zone 4 2015 Negotiable Promissory Notes as of June 30, 2022 is as follows:

| Fiscal Year | | | | | | |
|-------------|-----------|-----------|----------|---------|-------|-----------|
| (June 30) | Principal | | Interest | | Total | |
| 2023 | \$ | 2,500,000 | \$ | 321,500 | \$ | 2,821,500 |
| 2024 | | 2,625,000 | | 193,375 | | 2,818,375 |
| 2025 | | 2,755,000 | | 63,875 | | 2,818,875 |
| Total | \$ | 7,880,000 | \$ | 578,750 | \$ | 8,458,750 |
| | _ | | _ | | _ | |

For the Year Ended June 30, 2022

6) SELF-INSURANCE PROGRAM

The District participates in the County's self-insurance program. The County is self-insured for public liability, property damage, long-term and short-term disability, medical malpractice, unemployment and workers' compensation. The County records estimated liabilities for such claims filed or estimated to be filed for incidents that have occurred. The County supplements its self-insurance for long-term disability and workers' compensation with insurance policies. The insurance carrier pays all long-term disability payments exceeding the first two years of coverage.

The maximum coverage under the workers' compensation policy is \$500,000 per claim, and there is no deductible. The County allocates an annual premium to the District based on current payroll costs and an experience modification. The annual premium to the District in fiscal year 2022 was \$498,931.

In the past three fiscal years, the District has not experienced settlements or judgements that exceeded the self-insured coverage.

7) RETIREMENT PLAN

A) Plan Description

The District contributes to the California Public Employees Retirement System (CalPERS), an agent multiple-employer public employee defined benefit pension plan. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. State statutes within the Public Employees' Retirement Law establish a menu of benefit provisions as well as other requirements. The District selects optional benefit provisions from the benefit menu by contract with CalPERS and adopts those benefits through local ordinance. CalPERS issues a separate comprehensive annual financial report. However, a report for the District's plan within CalPERS is not available.

Copies of the CalPERS' annual financial report may be obtained from the CalPERS Executive Office - 400P Street, Sacramento, CA 95814 or an electronic version may be obtained at CalPERS' website under Forms and Publications.

B) Benefits Provided

CalPERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. At service retirement, a monthly allowance equal to the product of the benefit factor, years of service, and final compensation is paid to the retiree in the form of an annuity. A classic CalPERS member, an employee hired prior to January 1, 2013 becomes eligible for service retirement upon attainment of age 50 with at least 5 years of credited service with a benefit formula of 3% at 60. A classic CalPERS member, hired on or after August 23, 2012 has a modified retirement formula of 2% at 60. A PEPRA member, an employee hired after January 1, 2013, will be eligible for service retirement at age 55 with at least 5 years of service with a benefit formula of 2% at 62.

C) Contribution Description

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the Year Ended June 30, 2022

7) RETIREMENT PLAN – Continued

C) Contribution Description – Continued

For the fiscal year ended June 30, 2022 the average active employee contribution rate is 7.37 percent of annual covered salary and the District's contribution rate is 11.15 percent of annual payroll. The District made contributions to CalPERS of \$19,317,568 for the fiscal year ended June 30, 2022. Included in this contribution was the District's required contribution of \$8,564,355 and an additional contribution towards the Distict's unfunded liability of \$10,753,213.

D) Net Pension Liability

The District's net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2020 with a roll-forward adjustment to June 30, 2021.

E) Actuarial Assumptions

The June 30, 2020 valuation was rolled forward to determine the June 30,2021 total pension liability, based on the following actuarial methods and assumptions:

Actuarial Cost Method Entry age normal

Actuarial Assumptions

Discount Rate 7.15% Inflation 2.50%

Salary Increases Varies by Entry Age and Service

Mortality Rates The probabilities of mortality are based on the 2017 CalPERS Experience

Study for the period from 1997 to 2015. Pre-retirement and Post-retirement mortality rates include 15 years of projected mortality improvement using

90% of Scale MP-2016 published by the Society of Actuaries.

Increase Allowance Floor on Purchasing Power applies, 2.50% thereafter

Payroll Growth 2.75%

Investment Rate of Return 7.00% Net of Pension Plan Investment and Administrative Expenses;

includes Inflation.

Retirement Age The probabilities of Retirement are based on the 2017 CalPERS Experience

Study for the period from 1997 to 2015.

F) Change of Assumptions

Changes of Assumptions: None in 2019 - 2021. In 2018, demographic assumptions and inflation rate were changed in accordance to the CalPERS Experience Study and Review of Assumptions December 2017. There were no changes in the discount rate. In 2017, the discount rate was reduced from 7.65% to 7.15%. In 2016, there were no changes. In 2015, amounts reported reflect an adjustment of the discount rate from 7.5% (net of administrative expense) to 7.65% (without a reduction for pension plan administrative expense). In 2014, amounts reported were based on the 7.5% discount rate.

For the Year Ended June 30, 2022

7) RETIREMENT PLAN - Continued

G) Discount Rate

The discount rate used to measure the total pension liability was 7.15% percent. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.15% percent discount rate is appropriate and the use of the municipal bond rate calculation is not necessary. The long-term expected discount rate of 7.15% percent is applied to all plans in the Public Employees Retirement Fund.

The stress test results are presented in a detailed report called "GASB Crossover Testing Report" that can be obtained at CalPERS' website under the GASB 68 section.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

| Asset Class | New Strategic Allocation | Real Return Years 1-10 | Real Return Years 11+ |
|------------------|-----------------------------|---------------------------|--------------------------|
| Global Equity | 50.0% | 4.80% | 5.98% |
| Fixed Income | 28.0% | 1.00% | 2.62% |
| Inflation Assets | 0.0% | 0.77% | 1.81% |
| Private Equity | 8.0% | 6.30% | 7.23% |
| Real Assets | 13.0% | 3.75% | 4.93% |
| Liquidity | 1.0% | 0.00% | (0.92%) |

For the Year Ended June 30, 2022

7) RETIREMENT PLAN - Continued

G) Net Pension Liability

The changes in the Net Pension Liability are as follows:

| | Increase (Decrease) | | | |
|--|--|----------------|-------------------|--|
| | Total Pension Plan Fiduciary Net Pension | | | |
| | Liability Net Position | | Liability/(Asset) | |
| Balance at Valuation Date of 7/1/2020: | \$ 16,827,353 | \$ 145,861,126 | \$ 70,966,227 | |
| Changes During the Measurement Period: | | | | |
| Service Cost | 3,162,509 | - | 3,162,509 | |
| Interest on the Total Pension Liability | 15,201,134 | - | 15,201,134 | |
| Changes of Assumptions | - | - | - | |
| Differences between Expected and Actual Experience | (7,097) | - | (7,097) | |
| Net Plan to Plan Resource Movement | - | (49,378) | 49,378 | |
| Contributions from the Employer | - | 19,468,855 | (19,468,855) | |
| Contributions from the Employee | - | 1,376,469 | (1,376,469) | |
| Net Investment Income | - | 34,442,801 | (34,442,801) | |
| Benefit Payments | (11,596,516) | (11,596,516) | - | |
| Administrative Expense | - | (145,706) | 145,706 | |
| Other Miscellaneous Income/(Expense) | | | | |
| Net Changes | 6,760,030 | 43,496,525 | (36,736,495) | |
| Balance at Measurement Date of 6/30/2021: | \$ 223,587,383 | \$ 189,357,651 | \$ 34,229,732 | |

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Plan as of the measurement date, calculated using the discount rate of 7.15 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.15 percent) or 1 percent-point higher (8.15 percent) than the current rate:

| | Disc | count Rate – 1% | D | iscount Rate | Dis | count Rate + 1% |
|---------------------------------------|------|-----------------|----|--------------|-----|-----------------|
| | | (6.15 %) | | (7.15 %) | | (8.15 %) |
| Plan's Net Pension Liability/ (Asset) | \$ | 63,341,917 | \$ | 34,229,732 | \$ | 10,154,893 |

H) Pension Plan Fiduciary Net Position

Detailed information about the CalPERS pension plan Fiduciary Net Position is available in a separately issued financial report. That report may be obtained at CalPERS' website under Forms and Publications.

For the Year Ended June 30, 2022

7) RETIREMENT PLAN - Continued

1) Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2022, the District recognized pension expense of \$1,551,725. At June 30, 2022, the District reported deferred inflows of resources of related to pensions from the following sources:

| | red Outflows of Resources | Deferred Inflows of Resources | |
|---|----------------------------------|-------------------------------|------------|
| Pension Contributions Subsequent to | _ | | _ |
| Measurement Date | \$ 19,317,568 | \$ | - |
| Changes of Assumptions | - | | - |
| Differences between Expected and Actual | | | |
| Experience | 648,869 | | 5,126 |
| Net Difference between Projected and Actual | | | |
| Earnings on Pension Plan Investments | _ | | 17,238,032 |
| Total | \$ 19,966,437 | \$ | 17,243,158 |

\$19,317,568 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction to the net pension liability in the fiscal year ending June 30, 2023. Other amounts reported as deferred outflows and inflows of resources related to pension will be recognized in future pension expense as follows:

| Measurement Period Ended June 30: | Deferred Outflows/(Inflows) of Resources | | | |
|-----------------------------------|--|--------------|--|--|
| 2022 | \$ | (3,769,349) | | |
| 2023 | | (3,950,231) | | |
| 2024 | | (4,135,136) | | |
| 2025 | | (4,739,573) | | |
| 2026 | | - | | |
| Thereafter | \$ | (16,594,289) | | |

J) Recognition of Gains and Losses

Under GASB 68, gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time.

The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense.

The amortization period differs depending on the source of the gain or loss:

| Difference between projected and actual earnings | 5 year straight-line amortization |
|--|--|
| All other amounts | Straight-line amortization over the average expected remaining service lives of all members that are provided with benefits (active, inactive and retired) |
| | as of the beginning of the measurement period |

For the Year Ended June 30, 2022

7) RETIREMENT PLAN – Continued

K) Recognition of Gains and Losses - Continued

The expected average remaining service lifetime (EARSL) is calculated by dividing the total future service years by the total number of plan participants (active, inactive, and retired).

The EARSL for the Plan for the June 30, 2021 measurement period is 3.6 years, which was obtained by dividing the total service years of 2,390 (the sum of remaining service lifetimes of the active employees) by 658 (the total number of participants: active, inactive, and retired).

L) Employees Covered

At June 30, 2020, the following employees were covered by the CalPERS Plan:

| Active employees | 223 |
|--|-----|
| Inactive employees or beneficiaries currently receiving benefits | 283 |
| Inactive employees entitled to, but not yet receiving benefits | 152 |
| Total | 658 |

8) POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

A) Plan Description

The District participates in the County's program that provides retiree medical benefits for eligible retirees enrolled in County-sponsored and administered retiree medical plans. The postemployment benefit plan is an agent multiple-employer defined benefit post-employment healthcare plan (OPEB Plan). Benefit provisions are established and amended through negotiations between the County and the respective unions. All employees who retire from active employment after age 50 with 5 years of District service (and are immediately eligible for CalPERS pension benefits) are eligible to participate. Former employees eligible for CalPERS pension benefits but who are not eligible for retirement at termination of employment are not eligible for retiree health benefits. As of June 30, 2022, 75 District employees meet the age eligibility requirements, 63 of which will be covered upon retirement while the remaining 12 will qualify upon reaching 5 years of service. Another 86 employees have sufficient time in service to qualify for these benefits upon retirement after age 50.

The District provides retirees access to the same medical coverage as active participants. Prior to age 65, the retiree premiums are the same as active premiums and are developed by blending active and retiree costs. This benefit ceased on January 1, 2011. Currently, all retirees are required to pay "retiree only" (i.e. unblended) premium rates. Participants who retired prior to January 1, 2009 were eligible for this benefit. After age 65, retiree premiums are based exclusively on retiree costs.

The District has established a qualified Internal Revenue Code Section 115 trust with the California Employers' Retiree Trust (CERBT) to administer the assets of retiree medical plan benefits for District employees. The CERBT issues a publicly available financial report that includes financial statements and required supplementary information related to the established trust. The report may be obtained from CalPERS Employer Services Division, P.O. Box 942709, Sacramento, CA 94229-2709.

For the Year Ended June 30, 2022

7) POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS – Continued

B) Employees Covered

As of the June 30, 2021 actuarial valuation, the following current and former employees were covered by the benefit terms under the OPEB Plan:

| Active employees | 227 |
|--|-----|
| Inactive employees or beneficiaries currently receiving benefits | 58 |
| Inactive employees entitled to, but not yet receiving benefits | - |
| Total | 285 |

C) Contributions

The District contributes a portion of an eligible retiree's medical plan premium under a County sponsored health plan (either at retirement or during a subsequent annual enrollment) for the retiree's lifetime. The current monthly amount paid by the District ranges from \$25 - \$256, depending on the retiree's bargaining unit at retirement. All bargaining units are eligible for the greater of the stated Public Employees' Medical and Hospital Care Act (PEMHCA) amounts and the bargaining unit's negotiated amount. The PEMHCA monthly amounts are \$143.00 and \$149.00 in 2021 and 2022, respectively, and increase annually thereafter by Medical CPI. These are the only groups that have inflation-indexed benefits.

D) Net OPEB Liability

The District's net OPEB liability was measured as of June 30, 2021 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation dated July 1, 2021 with a roll forward adjustment to June 30, 2021.

E) Actuarial Assumptions

The June 30, 2021 total OPEB liability is based on the following actuarial methods and assumptions:

| Actuarial Valuation Date | July 1, 2021 |
|----------------------------|--|
| Actuarial Cost Method | Entry Age Normal with Amortization of 7/1/2017 unfunded liability over |
| | a period ending 6/30/2037 and amortization of subsequent unanticipated |
| | changes in unfunded liability over 15-year periods and any asset gain/loss |
| | over 5-year periods. |
| Asset Valuation Method | Market Value |
| Discount Rate | 6.20% |
| Investment Rate of Return | 6.20%, net of OPEB plan investment expense, including inflation |
| Projected Salary Increases | 2.75% |
| Retirement Age | Retirement rates developed in the 2017 CalPERS Experience Study |
| Healthcare Cost Trend Rate | 6.7% for Pre Medicare and 7.7% for Post Medicare |
| Mortality | Pub-2010 Headcount-Weighted Public Retirement Plans Mortality Tables |
| • | using scale MP-2021 |
| Inflation Rate | 2.50% |
| | |

The healthcare cost trend rate for the Pre Medicare Plan was 6.7 percent, decreasing 0.3 percent per year to an ultimate rate of 4.5 percent for 2028 and later years. The healthcare cost trend rate for the Post Medicare Plan was 7.7 percent, decreasing 0.5 percent per year to an ultimate rate of 4.5 percent for 2028 and later years.

For the Year Ended June 30, 2022

F) Discount Rate

The discount rate used to measure the total OPEB liability was 6.20%. The projection of cash flows used to determine the discount rate assumed that the District's contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees and beneficiaries. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

The long-term expected rate of return on OPEB plan investments was determined using a building block method in which expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

| Asset Class | Target Allocation | Target Range |
|--|-------------------|--------------|
| Global Equity | 59% | ± 5% |
| Global Fixed Income | 25% | \pm 5% |
| Treasury Inflation-Protected Securities (TIPS) | 5% | $\pm 3\%$ |
| Real Estate Investment Trusts (REITs) | 8% | \pm 5% |
| Commodities | 3% | $\pm 3\%$ |

G) Changes in the OPEB Liability

The changes in the net OPEB liability are as follows:

| | Increase (Decrease) | | | | | | | |
|---|---------------------|----------|-------------|-------------------|-------------|--|--|--|
| | Total OPEB | Net OPEB | | | | | | |
| | Liability | N | et Position | Liability/(Asset) | | | | |
| Balance at 06/30/2021: | \$ 3,314,981 | \$ | 1,185,462 | \$ | 2,129,519 | | | |
| Changes During the Measurement Period: | | | | | | | | |
| Service Cost | 99,280 | | - | | 99,280 | | | |
| Interest on the Total OPEB Liability | 214,790 | | - | | 214,790 | | | |
| Changes of Benefit Terms | - | | - | | - | | | |
| Difference Between Expected and Actual Experience | 284,585 | | - | | 284,585 | | | |
| Changes of Assumptions | 1,208,219 | | - | | 1,208,219 | | | |
| Benefits Payments | (171,060) | | (171,060) | | - | | | |
| Contributions From the Employer | - | | 2,171,060 | | (2,171,060) | | | |
| Net Investment Income | - | | 356,737 | | (356,737) | | | |
| Administrative Expense | | | (659) | | 659 | | | |
| Net Changes | 1,635,814 | | 2,356,078 | | (720,264) | | | |
| Balance at Measurement Date of 6/30/2022: | \$ 4,950,795 | \$ | 3,541,540 | \$ | 1,409,255 | | | |

For the Year Ended June 30, 2022

8) POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS - Continued

H) Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following table illustrates the impact of interest rate sensitivity on the Net OPEB Liability for the measurement period ended June 30, 2022:

The following table illustrates the impact of healthcare cost trend sensitivity on the Net OPEB Liability for the measurement period ended June 30, 2022:

Annual Medical Inflation ("Trend") – All District contributions excluding PEMHCA are assumed to remain at the current level.

I) OPEB Plan Fiduciary Net Position

CalPERS issues a publicly available financial report that may be obtained from the from the CalPERS Executive Office - 400P Street, Sacramento, CA 95814 or an electronic version may be obtained at CalPERS' website under Forms and Publications.

J) Recognition of Deferred Outflows and Deferred Inflows of Resources

For the year ended June 30, 2022, the District recognized OPEB expense of \$603,977. At June 30, 2022, the District reported deferred inflows of resources of related to OPEB from the following sources:

D-f-----1 O-4fl----- D-f-----1 I-fl-----

| | _ | Resources | of Resources | | |
|--|----|-----------|--------------|---------|--|
| Difference Between Actual and Expected Experience | \$ | 391,495 | \$ | - | |
| Net Difference Between Expected and Actual Earnings on | | | | | |
| OPEB Plan Investments | | = | | 211,460 | |
| Assumption Changes | | 3,066,608 | | 963 | |
| Total | \$ | 3,458,103 | \$ | 212,423 | |

Amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized in future OPEB expense as follows:

| Measurement Period Ended | Deferred Outflows/(Inflows | | | |
|--------------------------|----------------------------|--------------|--|--|
| June 30: | | of Resources | | |
| 2023 | \$ | 397,875 | | |
| 2024 | | 396,429 | | |
| 2025 | | 397,904 | | |
| 2026 | | 400,781 | | |
| 2027 | | 448,006 | | |
| Thereafter | | 1,204,685 | | |
| | \$ | 3,245,680 | | |

For the Year Ended June 30, 2022

9) CONTINGENCIES AND COMMITMENTS

Lawsuits and Other Claims

The District is named in various legal actions. Management believes that the ultimate resolution of these actions will not have a significant effect on the District's financial position, results or operations. The estimated amount of remaining construction contract obligations at year-end is \$20,677,668.

10) UNRESTRICTED NET POSITION DEFICIT

GASB 68, Accounting and Financial Reporting for Pensions – An Amendment of GASB Statement No. 27, requires the reporting of the District's unfunded pension liability resulting in the government-wide financial statements reporting a deficit unrestricted net position of \$23,930,911 for the year ended June 30, 2022.

11) LEASES

The District currently leases property to third parties under long-term noncancelable contracts ranging from 5 to 20 years. The District recognized \$99,654 in lease revenue and \$12,363 in interest revenue during the current fiscal year related to various leases. As of June 30, 2022, the District's receivable for lease payments was \$674,430. Also, the District has a deferred inflow of resources associated with leases that will be recognized as revenue over the lease terms. As of June 30, 2022, the balance of the deferred inflow of resources was \$660,130.

¹ Historical information is presented only for measurement periods for which GASB Statement No. 68 is available. This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, the information will be presented for those years for which GASB 68 is applicable.

² In 2020, the accounting discount rate remained at 7.15 percent. In 2017, the accounting discount rate reduced from 7.65 percent to 7.15 percent. In 2016, there were no changes. In 2015, the amounts reported reflect an adjustment of the discount rate from 7.5 percent (net of administrative expense) to 7.65 percent. In 2014, amounts reported were based on the 7.5 percent discount rate.

³ Includes one year's payroll growth using 2.75 percent payroll growth assumption for fiscal years ended June 30, 2018-20; 3.00 percent payroll assumption for fiscal years ended June 30, 2014-17.

Riverside County Flood Control and Water Conservation District Notes to Required Supplemental Information

BUDGETARY COMPARISON SCHEDULES

In accordance with the provisions of the State of California, County Budget Act, Government Code Sections 29000-29144 and Section 30200, the District prepares and adopts a budget under the supervision and control of the Riverside County, Board of Supervisors (the Board) on or before August 30 for each fiscal year. Budgets are adopted for the General fund and Special Revenue funds and are prepared on the modified accrual basis of accounting in conformity with generally accepted accounting principles.

As adopted by the Board, the District controls expenditures at the class or appropriation level within each category presented on the financial statements as follows:

- General Government
- Public Ways and Facilities
- Capital outlay
- Debt service payments for principal and interest
- Transfers

Encumbrances are commitments related to contracts executed for goods or services. Encumbrances are recorded for budgetary control and accountability purposes in the General and Special Revenue funds. Any outstanding encumbrances at year-end represent the estimated amount of expenditures that may result if the contracts in progress at year-end are completed. If the District has recorded these outstanding contracts in the next fiscal year's budget then encumbrances are not recorded. The unencumbered balances (appropriations less expenditures and encumbrances) lapse at year-end.

Any deficiency of budgeted revenues and other financing sources compared to expenditures and other financing uses is financed by beginning available fund balances as provided for in the State of California, County Budget Act.

Riverside County Flood Control and Water Conservation District Special Revenue Funds

- Zone 1: This special revenue fund represents District Zone 1. This fund was established to account for revenues and expenditures related to providing flood control in this geographical zone. Ad valorem property taxes, developer fees, local cooperative agreements and Federal monies primarily finance this fund.
- Zone 2: This special revenue fund represents District Zone 2. This fund was established to account for revenues and expenditures related to providing flood control in this geographical zone. Ad valorem property taxes, developer fees, local cooperative agreements and Federal monies primarily finance this fund.
- Zone 3: This special revenue fund represents District Zone 3. This fund was established to account for revenues and expenditures related to providing flood control in this geographical zone. Ad valorem property taxes, developer fees, local cooperative agreements and Federal monies primarily finance this fund.
- Zone 4: This special revenue fund represents District Zone 4. This fund was established to account for revenues and expenditures related to providing flood control in this geographical zone. Ad valorem property taxes, developer fees, local cooperative agreements and Federal monies primarily finance this fund.
- Zone 5: This special revenue fund represents District Zone 5. This fund was established to account for revenues and expenditures related to providing flood control in this geographical zone. Ad valorem property taxes, developer fees, local cooperative agreements and Federal monies primarily finance this fund.
- Zone 6: This special revenue fund represents District Zone 6. This fund was established to account for revenues and expenditures related to providing flood control in this geographical zone. Ad valorem property taxes, developer fees, local cooperative agreements and Federal monies primarily finance this fund.
- Zone 7: This special revenue fund represents District Zone 7. This fund was established to account for revenues and expenditures related to providing flood control in this geographical zone. Ad valorem property taxes, developer fees, local cooperative agreements and Federal monies primarily finance this fund.
- *NPDES Whitewater:* This special revenue fund was established to account for revenue and expenditures related to the National Pollutant Discharge Elimination System (NPDES) in the Whitewater assessment area. A benefit assessment area primarily finances this fund.
- *NPDES Santa Ana:* This special revenue fund was established to account for revenue and expenditures related to the National Pollutant Discharge Elimination System (NPDES) in the Santa Ana assessment area. A benefit assessment area primarily finances this fund.
- *NPDES Santa Margarita*: This special revenue fund was established to account for revenue and expenditures related to the National Pollutant Discharge Elimination System (NPDES) in the Santa Margarita assessment area. A benefit assessment area primarily finances this fund.

Riverside County Flood Control and Water Conservation District Non-Major Enterprise Funds

Photogrammetry Operations Fund: This fund was established to account for revenues and expenses related to surveying and mapping services performed within the County of Riverside by the Photogrammetry section. Surveying and mapping services are provided to other governmental agencies, private enterprises and individuals.

Encroachment Permits Fund: This fund was established to account for revenue and expenses related to encroachment permit services performed by the Encroachment Permit section. These services are provided to other governmental agencies, developers and individuals. Governmental agencies, developers and individuals must obtain an encroachment permit from the District to gain temporary access to flood control facilities for purposes of completing other construction projects not sponsored by the District.

Riverside County Flood Control and Water Conservation District Internal Service Funds

Hydrology Services Fund: This fund was established to account for revenues and expenses related to hydrological information services performed by the Hydrology section. These services are provided to support zone projects and are charged to the special revenue funds on a cost reimbursement basis.

Garage Fund: This fund was established to account for revenue and expenses related to the operation and maintenance of the District's vehicles. Garage services are provided to support the fleet of vehicles and heavy equipment needed to maintain flood control facilities. These services are charged to all District funds on a cost reimbursement basis.

Project Maintenance Fund: This fund was established to account for revenues and expenses related to the maintenance of the District's flood control facilities. Project maintenance services include weed abatement, repair and preventative maintenance of flood control facilities. These services are charged to the special revenue funds on a cost reimbursement basis.

Data Processing Fund: This fund was established to account for revenues and expenses related to data processing services performed by the Information Technology section and reproduction and binding services. Data processing services include software system support for the computer network, data structure design, organization of the District computer systems, scanning and binding. These services are charged to all District funds on a cost reimbursement basis.

STATISTICAL SECTION

CONTENTS

Financial Trends

89

These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.

Revenue Capacity

98

These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.

Debt Capacity

104

These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.

Demographic and Economic Information 109

These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.

Operating Information

112

These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.

Source: Assessor Annual Report - County of Riverside. Assessed Valuations are reported for all of Riverside County.

Notes: Property in the county is reassessed annually. The county assesses property at 100 percent of actual value, subject to the limitations of Prop 13, for all types of real and personal property.

Estimated actual value is calculated by dividing assessed value by those percentages. Tax rates are per \$1,000 of assessed value.

¹ Includes tax exempt property

Source: Auditor-Controller - County of Riverside, Auditor-Controller's Office

Notes:

- (1) The tax rate for Tax Rate Area 009-000, which applies to most property within the City of Riverside, is used to illustrate the breakdown of the tax rate within the County.
- (2) Flood Control would receive approximately 3.168% of the county-wide rate in Tax Rate Area 009-000.
