

PUBLIC NOTICE

Santa Margarita River Watershed Management Area
WQIP Update
Consultation Committee Meeting
October 22, 2020 2pm – 4pm

project clean water

Dear Stakeholders,

The Santa Margarita River Watershed Management Area (SMRWMA) jurisdictions are performing an update of the Water Quality Improvement Plan (WQIP). The focus of the update is to incorporate the Investigative Order NO. R9-2019-0007 to conduct Estuary and Watershed Monitoring, Assessment, and Reporting.

An established SMRWMA Consultation Committee is comprised of representatives from the environmental and development communities, watershed stakeholders and Regional Water Quality Control Board staff. The Consultation Committee members are familiar with the SMRWMA and serves as a form of public participation and input mechanism. The knowledge and expertise from the members provide the jurisdictions valuable feedback during the decision-making process of finalizing the WQIP update.

A virtual Consultation Committee meeting (via Microsoft Teams) is scheduled for **October 22, 2020 at 2pm – 4pm** and the public is invited to attend. At this meeting, the jurisdictions will review the content of the planned update with the Committee members to receive recommendations. There will also be an opportunity for public comment during the meeting (3 minutes per speaker).

If you are interested in attending the virtual Consultation Committee meeting, please click on the link below:
