APPENDIX A – Proposed NPDES Program Budget (FY 2024-25)

APPENDIX B – RCFC&WCD Ordinance No. 14 (May 14, 1991)

APPENDIX C – Map of Santa Ana Watershed Benefit Assessment Area (SAWBAA)

APPENDIX D – SAWBAA Assessment Roll (FY 2024-25)

P8/255945

INTRODUCTION

In 1987, Congress amended the Federal Clean Water Act (CWA) to require public agencies which serve urbanized areas with a population greater than 100,000 and other designated areas to obtain permits to discharge urban stormwater runoff from municipally owned drainage facilities including streets, highways, storm drains, and flood control channels. In November 1990, the United States Environmental Protection Agency (USEPA) promulgated enforceable regulations establishing Municipal Separate Storm Sewer System (MS4) Permit requirements under its National Pollutant Discharge Elimination System (NPDES) program. In California, the USEPA has delegated its NPDES permitting authority to the California State Water Resources Control Board (CSWRCB). The CSWRCB issues and enforces NPDES MS4 Permits through its nine California Regional Water Quality Control Boards (CRWQCB).

The Riverside County Flood Control and Water Conservation District's (District) service area encompasses portions of three major watersheds: the Santa Ana, Santa Margarita, and Whitewater watersheds. The discharge of stormwater from MS4s within each of these three watersheds is regulated pursuant to an NPDES MS4 Permit administered by a separate CRWQCB. **The District must comply with the provisions of these NPDES Permits in order to legally operate and maintain its flood control and drainage system infrastructure.** The USEPA and the CRWQCB can impose significant penalties for non-compliance as high as $25,000[1] per day per violation. In addition, private citizens can pursue enforcement actions under the Federal CWA.

In the case of the Santa Ana Watershed, the District, along with the County of Riverside (County) and the Cities of Beaumont, Corona, Hemet, Lake Elsinore, Moreno Valley, Norco, Perris, Riverside, and San Jacinto, obtained an "early"[2] NPDES MS4 Permit from the CRWQCB - Santa Ana Region (Regional Board) on June 1, 1990. The Regional Board added the then newly incorporated Cities of Calimesa and Canyon Lake to the NPDES MS4 Permit on June 10, 1992. This first NPDES MS4 Permit was considered a "Developmental Permit." The Permittees were authorized to continue discharging stormwater from their municipally owned storm drain and flood control facilities while developing the various elements of their respective Municipal Stormwater Management Programs.

Each permit renewal has required the Permittees to further develop programs to effectively prohibit non-stormwater discharges into the MS4 and to reduce the discharge of pollutants from the MS4 to the Maximum Extent Practicable (MEP). Below is a table that shows the permit renewal history.

Table 1 - Riverside County Permit History in the SAR

Permit Term	Order No.	Date Adopted	Date Expired
First (1990-1995)	90-104	June 1, 1990	June 1, 1995
Second (1996-2001)	96-30	March 8, 1996	March 1, 2001
Third (2002-2007)	R8-2002-0011	October 25, 2002	October 25, 2007
Fourth (2010-2015)*	R8-2010-0033	January 29, 2010	January 29, 2015

*The 2010 MS4 Permit is expired but has been administratively extended until a new MS4 permit is adopted. On June 7, 2013, the Regional Board adopted Order No. R8-2013-0024 amending Order No. R8-2010-0033, NPDES No. CAS 618033 to add the newly incorporated cities of Eastvale and Jurupa Valley to the list of Permittees.

[1] https://www.epa.gov/enforcement/criminal-provisions-water-pollution

[2] The term "early" is used to refer to permits that were issued prior to the promulgation of the final USEPA rules for permitting municipal stormwater discharges [40 CFR 122.26, November 1990].

From the beginning, the Permittees have been guided by the following principles:

1. Utilize existing municipal departments/programs to meet NPDES Permit requirements whenever possible.

2. Minimize duplication of effort through coordinated Permittee compliance actions.

3. When necessary, develop new or enhanced stormwater management programs that are both cost-effective and acceptable to the public.

The Santa Ana Watershed Benefit Assessment Area (SAWBAA) was established pursuant to District Ordinance No. 14 on May 14, 1991 (copy attached - see Appendix B). The SAWBAA was formed to offset the District's NPDES Stormwater Program and administrative costs associated with the development and implementation of identified stormwater management activities required by each permit. **The District must continue to develop and implement these stormwater management activities in order to legally operate and maintain its flood control and drainage facilities.** A map showing the boundaries of the SAWBAA is attached hereto as Appendix C.

As Principal Permittee, the District is required to take a lead role, and implement area-wide management programs and related plans, as required by the 2010 MS4 Permit[3]. As such, the costs of the District's various NPDES MS4 Permit compliance activities fluctuate from year to year. Although some expenses do not change significantly on a yearly basis, certain costs are cyclical (e.g., preparing ROWDs and negotiating permit provisions), while expenses associated with collecting water samples and performing laboratory analysis may vary according to the amount of rainfall occurring in a given year or in response to certain information requests from the Regional Board. Costs associated with the development, production and distribution of public education materials are not always incurred on a fiscal year (FY) basis. Occasionally, additional consultant and/or legal services may be needed to assist the District with the development of a particular permit requirement or program activity. Also, certain activities or programs may be expanded or curtailed from time to time and, occasionally, new programs or activities must be developed and implemented.

The regulation and management of stormwater runoff is a topic of increasing interest among the public, municipalities, regulatory authorities, and legislators. Although new laws and/or regulations could result in changes to the assessment rate in future years, **the proposed assessment rate for FY 2024-25 is equal to or less than the assessment rate that has been levied since FY 1996-97.**

[3] Section III.A, Order No. R8-2010-0033

APPORTIONMENT METHODOLOGY

SAWBAA assessments are apportioned on the basis of proportionate stormwater runoff generated by each parcel. This method of assessment is consistent with state law and District Ordinance No. 14. The amount of benefit is computed based upon parcel size (acreage) and land use classification. A single-family residential structure on a 7,200 square foot lot (1/6 of an acre) is defined as one benefit assessment unit (BAU). The BAUs for other types of land use are calculated in proportion to the amount of runoff generated by a single-family residence on a 7,200 square foot lot.

In comparison with a typical single-family residence, industrial and commercial properties typically generate more stormwater runoff and higher pollutant loads on a per acre basis. Thus, industrial/commercial parcels are assessed at a higher rate per acre than residential parcels. Because agricultural discharges are currently exempt under the NPDES MS4 Permit regulations, parcels within the SAWBAA that are used for agricultural purposes are exempted from the assessment. Vacant, undeveloped parcels are not assessed because they are considered to generate no increase in pollutant loading. Additionally, certain large undeveloped tracts of land such as federal or state-owned forest are excluded from the SAWBAA. A more detailed discussion of the apportionment methodology is presented in Appendix B.

CURRENT YEAR ASSESSMENTS (FY 2023-24)

In July 2023, the District's Board of Supervisors confirmed a benefit assessment rate for FY 2023-24 of $3.75 per BAU. Following is a summary of FY 2023-24 assessments:

Rate	Billed Parcels	BAUs	Assessments	Corrections	Amount Paid[2][3]
$3.75	411,820	751,670	$2,816,663[1]	$0.00	$2,695,288

[1] Amount reflects actual total assessments on all parcels. Total may vary due to rounding.
[2] Estimated based on FY 2022-23 delinquency percentage.
[3] Includes payments received for direct billed parcels.

Property owners may request a review of their assessment(s) by contacting the District. District staff considers each request by reviewing information such as assessor's parcel maps, aerial photographs, and, when necessary, conducting site visits. The Auditor-Controller is notified of any needed corrections and a new tax bill is issued or, in cases where the assessment has been paid, a refund is made. Last year, there was one correction processed.

RECOMMENDED BENEFIT ASSESSMENT RATES (FY 2024-25)

The District recommends that for FY 2024-25 the SAWBAA assessment rate remains unchanged at $3.75 per BAU. This BAU rate would result in an equivalent charge per acre for the following land uses:

Group	Land Use Classification	BAU/Acre	Assessment Rate*
A	Industrial/Commercial	12	$45.00/acre
B	Apartments/Mobile Home Parks, Churches and Schools	9	$33.75/acre
C	Single-family Residential	6**	$22.50/acre
D	Agricultural/Vacant Undeveloped	Exempt	$0.00/acre
E	Golf Courses	0.10	$0.38/acre
F	Undeveloped Portions of Parcels	0.05	$0.19/acre

* Refer to Appendix B for a detailed discussion of the Benefit Assessment methodology.
** One BAU per single-family residence, assuming six equally sized residential parcels per acre.

The projected revenue for FY 2024-25 using the proposed benefit assessment rate of $3.75 per BAU is as follows:

Rate	Parcels[(1)]	BAUs	Assessment[(1)(2)]	Projected Revenue[(3)]
$3.75	411,820	751,670	$2,816,663[(1)]	$2,675,830

(1) Based on FY 2023-24 Assessor's information.
(2) Totals may vary due to rounding.
(3) Assumes a 5.0% delinquency rate.

The projected revenue along with a portion of the end of year balance from FY 2023-24 will fund the District's NPDES Stormwater Program activities for the Santa Ana Watershed area in FY 2024-25. The proposed FY 2024-25 budget is presented in Appendix A.

During the early years of the NPDES Program, there were many uncertainties regarding start-up costs (e.g., consultant costs, amount of sampling that would be required, overall program scope, etc.) since the program was new for both the regulatory authorities and the Permittees. Consequently, the initial assessment rates were set conservatively to ensure that all Permit obligations could be met. To date, the District has been able to maintain a modest fund balance since the benefit assessments were first levied in FY 1991-92. The District is maintaining the current assessment rate while sustaining required expenditure levels that are slightly above projected revenues, which should gradually reduce the fund balance. It should also be noted that the current trend in California is towards more stringent regulation of municipal stormwater runoff and this trend is reflected in the Tentative Order R8-2024-0001. Thus, it is expected that the District's NPDES MS4 Permit compliance costs will increase over the coming years.

ASSESSMENT ROLL

The SAWBAA Assessment Roll provides a listing by Assessor's Parcel Number of the proposed FY 2024-25 Benefit Assessment to be levied on each parcel of property in the SAWBAA. The Assessment Roll is identified as Appendix D and incorporated herein by this reference. This Engineer's Report, along with the SAWBAA Assessment Roll, will be placed at the following locations for review by the public:

Clerk of the Board of Supervisors
4080 Lemon Street, 1st floor
Riverside, CA 92501

Riverside County Flood Control
and Water Conservation District
1995 Market Street
Riverside, CA 92501

City of Corona
400 South Vicentia Avenue, 1st Floor
Corona, CA 92882

City of Hemet
445 East Florida Avenue
Hemet, CA 92543

City of Lake Elsinore
130 S. Main Street
Lake Elsinore, CA 92530

NPDES PROGRAM HIGHLIGHTS (FY 2023-24)

For the year ending June 30, 2024, the following major tasks and activities were accomplished in compliance with the 2010 Santa Ana River MS4 Permit:

A. The District continued assisting the Permittees with implementing the Drainage Area Management Plan (DAMP), Watershed Action Plan (WAP), Local Implementation Plan (LIP), the Water Quality Management Plan (WQMP) guidelines and template, the Low Impact Development Design Handbook (LID Handbook), the California Stormwater Quality Association Best Management Practices Handbooks (CASQA BMP handbooks), and the local and regional components of the Permit. The DAMP, WAP, LIP, WQMP, LID Handbook, and CASQA BMP Handbooks assist Permittees and the District in satisfying the Permit requirements. The Permit and links to these documents are available on the District's NPDES website: https://rcwatershed.org/watersheds/middle-santa-ana-river-watershed/

B. The District continued maintaining its Stormwater and Water Conservation Tracking Tool (Geodatabase) and the Hydromodification Susceptibility layers within the database by reviewing updated MS4 facility layers, as-built plans, and field reconnaissance. The District also continued maintaining its Geographical Information System (GIS)-based database to track its facilities.

C. The District continued participating in the Lake Elsinore/Canyon Lake (LE/CL) Nutrient TMDL Task Force. The Task Force is comprised of stakeholders regulated by the Regional Board through the LE/CL Nutrient TMDL (LE/CL TMDL), which was adopted in 2004. The Permittees utilized the LE/CL TMDL Task Force to implement the approved Comprehensive Nutrient Reduction Plan (CNRP) which includes an on-going alum treatment project for Canyon Lake, as well as continued funding for the Lake Elsinore Aeration and Mixing System. The District executed an extension to the LE/CL TMDL agreement to extend the agreement to June 30, 2025. The LE/CL TMDL Task Force received continues collaborating with the Regional Board, State Board, Office of Administrative Law, and the United States Environmental Protection Agency to revise the LE/CL TMDL by this extension date.

D. The District continued participating in the Middle Santa Ana River Pathogen Indicator TMDL (MSAR TMDL) Task Force. The MSAR TMDL agreement was amended to extend the agreement to June 30, 2027. The Permittees utilized the agreement to aid the implementation of the Comprehensive Bacteria Reduction Plan (CBRP) for those named in the TMDL within Riverside County. The task force is planning on updating CBRP to address compliance with the wet weather waste load allocations once a new MS4 Permit is approved.

E. Permittees continued assessing previously identified locations to install structural Best Management Practices (BMPs) similar to the award-winning Phoenix Avenue Storm Drain Sewer Diversion project to manage dry weather flows and reduce bacterial indicators in downstream waters as part of the CBRP.

F. The District continued assessing the Eastvale MDP project (Lines D and E) to further eliminate bacteria contributions to the MSAR by diverting flows to sewer. The District

previously calculated treatment costs, assessed design feasibility, conducted continuous flow monitoring, and decided to fund the treatment of the diverted discharges of the project. The project is planned to be a multi benefit project for both water supply and water quality improvements by reducing bacteria loads to the Santa Ana River. The exact modifications and sponsorship of the project is yet to be determined based on the investigation results and recommendations.

G. The District is also a stakeholder in the Regional Water Quality Monitoring Task Force which conducts the Regional Bacteria Monitoring Plan (RMP) to support implementation of the MSAR Bacterial Indicator TMDL. The RMP prioritizes monitoring activities in waterbodies where significant recreational use frequently occurs, posing a greater potential risk to public health, by categorizing inland surface waters into Tiers and associated monitoring priority classifications.

H. The District continued identifying and tracking impending draft policies and proposed legislation to inform regulators, policy makers, and the Permittees of potential impacts to the Permit program or to any of its specific components.

J. The District continues to provide technical support to SAWPA and the Santa Ana River Bottom Homeless Solutions Collaborative Group pertaining to NPDES compliance obligations.

K. The District continued to chair the Santa Ana Technical Advisory Committee, which is comprised of Permittees, members of the Regional Board staff, and interested parties. The Permittees coordinate their Urban Runoff management activities to work toward achieving the greatest protection of Receiving Water quality. This committee serves as a forum to effectively disseminate information, discuss regional and statewide program issues, and plan and coordinate Permittee actions to achieve compliance with the 2010 MS4 Permit.

L. The District continued providing the Permittees' Management Steering Committee (MSC) with updates regarding the proposed regional MS4 permit. The MSC consists of the Permittee's City Managers, Directors of Public Works, and other essential municipal staff. They facilitate coordination with related water quality management programs and respond to new legislative and regulatory initiatives.

M. The District continued its financial support to area-wide stormwater pollution prevention programs, including the Household Hazardous Waste (HHW) temporary and permanent collection events and the "ABOP" (Anti-freeze, Batteries, Oil, and Paint) Program.

N. The District prepared and submitted a comprehensive Annual Report on behalf of the entire permittee group as well as a District-specific Annual Progress Report to the Regional Board.

O. The District continued to utilize its award-winning Low Impact Development (LID) Best Management Practice (BMP) research facility to demonstrate stormwater capture, management, treatment, and sampling. The centralized location of the District's research facility has served as an educational hub on green infrastructure for residents, regulators, developers, municipal employees, engineers, and other interested stakeholders throughout Southern California. The District continued monitoring and sampling its Bioretention

Basin and in collaborations with the Southern California Coastal Water Research Project and the U.S. Environmental Protection Agency completed the rehabilitation and instrument installation of its Planter Boxes.

P. The District continues to review its LID BMP Design Manual, which is focused on landscape based BMPs and infiltration capable of addressing water quality impairments before discharges can enter the Santa Ana Watershed. The LID BMP Design Manual is available on the District's website.

Q. The District and Permittees continued meeting with the Land Development Subcommittee to exchange ideas and experiences on various land development topics. The subcommittee met to review proposed land development permit provisions within the Tentative Order (the Regional Board's proposed MS4 permit) through a roundtable discussion to hear comments and concerns.

R. The District continued collection and analysis of water quality samples in accordance with the Permit's Monitoring and Reporting Program (MRP) via the Consolidated Monitoring Program (CMP) for water quality monitoring. The District's CMP includes the procedures for collecting and analyzing water quality samples at MS4 outfalls and from the receiving water stations within the Santa Ana Watershed during dry and wet weather events. These procedures encompass the requirements for sample handling, managing stormwater data, implementing, and ensuring data quality control, laboratory, and contractor obligations, and maintaining accurate reporting. Through the implementation of the procedures and standards described in the CMP, the District successfully facilitates a monitoring program to comply with the Permit's MRP.

S. The District continued offering online training for permittees covering topics from program management responsibilities to new legislation and the potential impacts to permittees.

T. The CMP for water quality monitoring describes the monitoring efforts necessary to comply with the County's three MS4 Permits. The SAR Monitoring Program includes specific procedures for collection and analysis of water quality samples at MS4 outfalls and receiving waters sites for a variety of constituents. The CMP also makes reference to other monitoring efforts that are implemented within the SAR, such as the LE/CL TMDL, MSAR TMDL, Hydromodification Monitoring, LID Monitoring, and participation in Regional Watershed Monitoring through membership with the Southern California Stormwater Monitoring Coalition (SMC). These monitoring components along with special studies have stand-alone work plans that have been developed and approved for these components independently of the CMP.

U. The District's monitoring group continued utilizing the GIS field data collection tool called Survey123. The electronic interface allows field crews to record data quickly in the field so that other personnel can efficiently compile, review, filter, and analyze the entries. This information is readily uploaded into the District's water quality database and checked for completeness and accuracy.

V. The District continued participation in the SMC on behalf of the Co-Permittees. The SMC is a multi-regional monitoring consortium of Southern California agency members, namely, comprised of Southern California Phase 1 Municipal NPDES Permit holders and

local Water Board representatives whose focus is developing effective, meaningful stormwater quality monitoring techniques. The goal of the SMC is to develop the technical information necessary to better understand stormwater mechanisms and impacts and then develop the tools that will effectively and efficiently improve stormwater decision-making. The SMC develops and funds cooperative projects to improve the knowledge of stormwater quality management and reports on the progress of those projects on an annual basis (http://socalsmc.org/).

W. The District collaborated with SMC member agencies to share resources for multi-benefit projects that can reduce costs relative to financing alone for large-scale region-wide efforts. To date, the District has served as SMC Chair, as the Vice-Chair, as the Project Manager for the SMC's Streamline Annual Reporting Project, on the Executive Steering Committee, on the Regional Bioassessment Survey Technical Subcommittee, SMC BMP Regional Network Subcommittee, and on the SMC California LID Evaluation and Analysis Network Technical Subcommittee.

X. The District continued coordinating with the SMC on a five-year southern California bioassessment monitoring program. The SMC regional monitoring program was created in response to the need for a more holistic and coordinated approach for gathering information about the health of streams in southern California both for compliance purposes and data-sharing purposes. The study is designed to answer questions essential to watershed management. Answering these questions at the regional scale provides resource managers with the ability to contextualize their programs and improve understanding of the effectiveness of management actions, prioritization of streams most in need of protection, and identification of stressors that are likely to pose the greatest risk to stream health.

Y. From our collective regional monitoring efforts, a revised study design was developed for 2020-2024. Four stations are being monitored for the bioassessment in SAR, for meeting both the bioassessment requirement and jointly demonstrating participation in the SMC per the requirements of the 2010 Permit. Moving forward, the SMC is initiating the next cycle of regional monitoring which will continue to assess trend and condition sites and may also expand to include wet-dry mapping of areas within the southern California watersheds, a causal assessment, and monitoring targeted underrepresented streams in the regional bioassessment work.

Z. The District continued participating in the California Stormwater Quality Association (CASQA). On behalf of California stormwater permittees, CASQA advances sustainable stormwater management protective of California water resources. It is made possible by a network of highly engaged professionals which make up its member association dedicated to CASQA's Strategic Plan and organization goals. To date, District staff has served on its Board of Directors, Executive Program Committee, Legislative Subcommittee, Monitoring and Science Subcommittee, Policy and Permitting Subcommittee, Best Management Practices (BMPs) Subcommittee, Pesticides Subcommittee, and True Source Control Subcommittee.

AA. The District continued presentation of bi-annual municipal employee stormwater training programs. These training classes focus on the requisite knowledge for properly implementing the DAMP and WQMP, and addressing Permittee functions such as

development planning, municipal activities, industrial/commercial inspections, and construction inspections. The District continues implementing online training that is cost effective and convenient.

BB. The District continued providing stormwater pollution prevention education and outreach by supporting area-wide events such as Love Your Neighborhood, implementing social campaigns, as well as distributing BMP brochures addressing pollution prevention, recycling, proper disposal of household hazardous waste, runoff from construction activities, pet care, swimming pool discharges, jacuzzi and garden fountain maintenance, septic tank upkeep, professional mobile services, landscape and gardening activities, over-irrigation tips, the "Do's and Don'ts" of outdoor cleaning, and proper housekeeping practices for automotive facilities, restaurants, and industrial/commercial facilities.

CC. The District continued to chair the Public Education Strategic Taskforce. Quarterly meetings include Permittee representation from the Santa Ana, Santa Margarita, and Whitewater watersheds to review elements of regional public education programs and program materials and communicate ideas on enhancing public education across all three watersheds.

DD. The District continued implementing its five-year Riverside County Watershed Protection Program Public Education Strategic Plan that applies community based social marketing approaches to the issue of eliminating dry weather runoff arising from excess irrigation. This included, for example, creating a door hanger and maintaining an updated Riverside County Watershed Protection Program website to educate residents, HOA's and businesses about irrigation runoff.

EE. The District continues to adapt its Watershed Protection website (http://rcwatershed.org) to become a "one-stop, one shop" website that contains public education materials, compliance documents, and any other information relevant to Permittees, the development community, regulatory agencies, and the public.

FF. The District continued coordinating all responsibilities assigned to the Principal Permittee in the 2010 MS4 Permit, as well as assisting Permittees with their jurisdictional requirements upon request.

PROGRAM/WORK ITEMS (FY 2024-25)

The principal work effort in the Santa Ana River Region in FY 2024-25 is anticipated to be permit renewal, including the continuation of negotiating a fifth-term municipal permit and updating the Program's policies, procedures, and guidance documents to address new permit requirements. Watershed planning and modeling, for the purpose of demonstrating eventual attainment of water quality standards and establishing an alternative compliance option with respect to the permit's receiving water limitation provisions, will likely bring significant new regulatory requirements for the Permittees and the District.

Support of program implementation will continue by improving the training program and covering key Santa Ana River Region Drainage Area Management Plan (DAMP) elements, and improvements to program effectiveness assessment. At the same time, there will be continued implementation of the public education program, environmental monitoring program, and fiscal support for household hazardous waste collection and other pollution prevention programs.

The major work tasks are presented below.

MS4 Program Management
As a Principal Permittee, the District will continue managing the regional requirements of the Permit. These activities include chairing technical advisory committee meetings, administering area-wide programs (e.g., public education, household hazardous waste collections, hazardous material spill response, stormwater sample collection and analysis), continuing ongoing program development, and preparing and submitting annual progress reports and watershed annual reports to the Regional Board and USEPA. The District will also continue focusing its efforts on identifying and commenting on statewide and nationwide issues that affect local stormwater programs. When requested, the District will continue assisting the Permittees in preparing for their respective program audits and accompanying them in navigating through the program audits.

The District will continue to work with Regional Board staff on implementation of TMDL requirements for certain pollutants identified as causing impairment of beneficial uses in Lake Elsinore, Canyon Lake, and the Santa Ana River. The TMDLs contain pollutant-specific implementation plans that must be funded and addressed by the Permittees. The District will continue to allocate significant resources by participating in TMDL Task Force and Regional Board meetings, commenting on technical reports and studies required by the implementation plans, as well as taking the lead in coordinating and implementing high priority structural BMP projects that will mitigate dry weather flows.

MS4 Permit Renewal
The 2010 MS4 Permit expired in 2015 and was administratively extended until the effective date of the new permit. The principal work effort in the SAR for FY 2024-25 is anticipated to be permit renewal, including the continuation of negotiating a fifth-term municipal permit and updating the programmatic policy and guidance documents to address new permit requirements.

LID Project
Through a partnership with the Santa Ana Watershed Project Authority (SAWPA), the District designed and constructed the existing Low Impact Development (LID) Best Management Practices (BMP) Testing and Demonstration Facility at the District's headquarters in Riverside, California.

The facility implements various LID BMPs to test and demonstrate stormwater capture, management, and treatment. The location of the District's research facility also serves as an educational hub on green infrastructure for residents, regulators, developers, municipal employees, engineers, and other interested stakeholders throughout Southern California. The District will continue to utilize its award-winning LID research facility to test and demonstrate stormwater capture, management, and treatment.

Stormwater and Water Conservation Tracking Tool

The District will continue updating and enhancing its Stormwater and Water Conservation Tracking Tool (Geodatabase) in FY 2024-25.

Area-Wide MS4 Program Contributions

The District will continue to provide financial support for several important area-wide BMP programs implemented on behalf of the Permittees. The programs currently include:

Public Education

The District provides for coordination and oversight of the area-wide NPDES public education and outreach efforts in all three watersheds, including public events, school and adult education programs, printed brochures, and commercial mass-media campaigns. This includes continued development and distribution of focused educational outreach materials for specific industries and businesses such as restaurants, auto repair shops, mobile cleaning businesses, and other industrial activities that are potential sources of stormwater pollution. Implementation of the Public Education Strategic Plan is underway.

Training for Municipal Employees

Formal training courses are provided to improve understanding of NPDES Permit requirements, the DAMP, and stormwater BMPs. The courses focus on methods to reduce and/or eliminate sources of stormwater pollution from public agency facilities and activities, implementation of the WQMP and Transportation Project Guidance (TPG), local stormwater ordinances, and State Construction and Industrial General Permit requirements. Training is conducted specifically for construction inspection staff, industrial/commercial facilities inspection staff, municipal facilities maintenance staff, and staff responsible for new development/redevelopment project review. The District will continue to offer and implement online training courses, providing for a more convenient and cost-effective training program.

Household Hazardous Waste Collection (HHW)/ABOP

The District and Co-Permittees provide financial support to the Riverside County Department of Waste Resources to support the permanent HHW collection sites at Agua Mansa and Lake Elsinore, ongoing mobile HHW collection events, and operation of the ABOP program, all of which provide local residents with opportunities to properly dispose of HHW.

Water Quality Monitoring

On behalf of all Permittees, the District will continue conducting wet weather and dry weather water quality sample collection and analysis in accordance with the Permit's latest Monitoring and Reporting Program requirements and the Riverside County Consolidated Monitoring Program. As applicable, the District will continue implementing improvements to the water quality monitoring activities and monitoring program reporting.

Watershed Action Plan (WAP)
The WAP describes and implements the Permittees' approach to coordinated watershed management. The objective of the WAP is to address watershed-scale water quality impacts of urbanization associated with urban TMDL waste load allocations, stream system vulnerability to hydromodification from urban runoff, cumulative impacts of development on vulnerable streams, preservation of beneficial uses of streams, and protection of water resources, including groundwater recharge areas. WAP related activities will focus on the implementation of:

1. Hydromodification Management Plan Evaluation Program - Monitoring will be conducted at two sites for the purpose of watershed characterization and to assess the effectiveness of efforts to manage increases in runoff volumes and discharge rates from new development or significant redevelopment projects through the implementation of the SAR HMP.

2. Retrofit Studies - GIS-based analyses will be conducted to identify candidate areas for retrofit projects within existing public and private MS4s, parks and recreational areas, and incorporate opportunities for addressing TMDL implementation plans, hydromodification from urban runoff, LID implementation, and pollutant discharge reduction.

A major focus during the coming fiscal year will be implementation and maintenance of the various WAP components.

Total Maximum Daily Loads (TMDLs)
The 2010 MS4 Permit directly incorporates two TMDLs that have been established for the Santa Ana Region of Riverside County, namely the MSAR Bacteria Indicator TMDL and the Lake Elsinore/Canyon Lake (LE/CL) Nutrient TMDL. The 2010 MS4 Permit incorporates interim and final Water Quality Based Effluent Limitations (WQBELs) specified in the TMDLs. The interim WQBELs are established based on the TMDL Implementation Plans. The final WQBELs are based on the approved 2012 CBRP for the MSAR TMDL and the approved 2013 CNRP for the LE/CL TMDL.

The MSAR TMDL Permittees will continue implementation of the CBRP in the upcoming fiscal year. In compliance with the LE/CL TMDL, the Permittees will continue implementation of the CNRP in the upcoming fiscal year. As part of CNRP implementation, the Permittees are working with the LE/CL TMDL Task Force to fund and administer in-lake projects at Canyon Lake and Lake Elsinore. The LE/CL TMDL is currently being revised by the Task Force with the help of the Task Force facilitator and consultants. The aim of the revision is to have a pragmatic approach to the LE/CL TMDL that takes into account the unique factors of the Canyon Lake and Lake Elsinore watersheds.

Municipal Facilities and Activities
The District will continue implementing the provisions of the NPDES Permit's Municipal Facilities Strategy as described in the DAMP, including any required improvements to the structural facilities at the District's headquarters, municipal employee training activities, and reduction and/or elimination of stormwater pollution sources impacting District facilities.

CONCLUSIONS AND RECOMMENDATIONS

The area-wide Municipal Stormwater Program for the Santa Ana Watershed has been implemented in an efficient, cost-effective manner through the ongoing cooperative efforts between the District, the Permittees, the Regional Board, the Riverside County Fire Department, and the Riverside County Department of Waste Resources. The District's NPDES Program activities, which are funded by SAWBAA assessments, are required to comply with the current 2010 MS4 Permit for the Santa Ana Watershed and enforceable provisions of the California Water Code and the Federal Clean Water Act, which regulate the discharge of stormwater from municipally owned storm drains and flood control facilities. These mandatory Stormwater Management Program activities are an essential component of the District's continuing operation and maintenance of its critical public safety facilities; therefore, the following action is recommended:

Continue to levy a Flood Control Benefit Assessment in the Santa Ana Watershed Benefit Assessment Area at an unchanged rate of $3.75 per benefit assessment unit for FY 2024-25.

APPENDIX B

RCFC&WCD Ordinance No. 14
(May 14, 1991)

ORDINANCE NO. 14

AN ORDINANCE OF THE RIVERSIDE COUNTY FLOOD CONTROL AND WATER CONSERVATION DISTRICT ESTABLISHING A BENEFIT ASSESSMENT FOR THE NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) STORMWATER PROGRAM

The Board of Supervisors of the Riverside County Flood Control and Water Conservation District, State of California, do ordain as follows:

ARTICLE I

GENERAL

Section 1. Title.

This Ordinance shall be known as the "NPDES Program - Benefit Assessment Ordinance" of the Riverside County Flood Control and Water Conservation District.

Section 2. Purpose.

The United States Environmental Protection Agency (the "EPA") has, consistent with Section 402 of the Federal Clean Water Act, as amended, promulgated the National Pollutant Discharge Elimination System Regulations (the "NPDES Regulations") pursuant to which the EPA, through the appropriate California Regional Water Quality Control Board (the "CRWQCB") has required the Riverside County Flood Control and Water Conservation District (the "District") and other affected public entities to secure a National Pollutant Discharge Elimination System Stormwater Permit (the "NPDES Permit") which does require the District to develop, implement and manage identified programs dealing with stormwater runoff. The parcels of land within the respective watersheds within the District's jurisdiction for which a NPDES Permit is

WILLIAM C. KATZENSTEIN
COUNTY COUNSEL
SUITE 300
3535 - 10TH STREET
RIVERSIDE, CALIFORNIA

6-4-91
REVISED
#2

required will benefit from these programs. The Board of Supervisors of the District has determined, pursuant to the Riverside County Flood Control and Water Conservation Act (the "District Act"), which is Chapter 48, as amended, of the California Water Code Appendix, to establish certain Benefit Assessment Areas in which the District will annually levy a Benefit Assessment to pay the cost of these programs required by the NPDES Permit. The Board of Supervisors of the District, consistent with Section 48-14 of the District Act, held a noticed public hearing at which time all testimony, oral and written, was considered. As the conclusion of the public hearing, the Board of Supervisors of the District adopted resolutions establishing the Benefit Assessment Areas. The provisions of this Ordinance confirming the establishment of the Benefit Assessment Areas and providing for the annual levy of a Benefit Assessment are consistent with the District Act and the reports prepared by the Chief Engineer of the District and accepted by the Board of Supervisors of the District.

The Board of Supervisors of the District finds that the Benefit Assessment to be annually levied shall be based on the proportional stormwater runoff generated by each lot or parcel within the Benefit Assessment Area. Revenues derived from the Benefit Assessment shall be applied exclusively to pay the District's administrative and program costs associated with the NPDES Permit required for the Benefit Assessment Area and are to be apportioned to the Benefit Assessment Area in which they are collected.

ARTICLE II

DEFINITIONS

Section 1. Unless otherwise specifically provided or required by the context, certain terms or expressions used herein have the meanings set forth below:

a.) "Benefit Assessment" means the Benefit Assessment to be levied annually on each Parcel within a Benefit Assessment Area pursuant to Article IV of this Ordinance.

b.) "Benefit Assessment Area" means a Benefit Assessment Area formed pursuant to Section 48-14 of the District Act by the Board of Supervisors and identified in Article III of this Ordinance.

c.) "Board of Supervisors" means the Board of Supervisors of the Riverside County Flood Control and Water Conservation District.

d.) "Chief Engineer" means the Chief Engineer of the Riverside County Flood Control and Water Conservation District.

e.) "County" means the County of Riverside, State of California.

f.) "CRWQCB" means the California Regional Water Quality Control Board for the region in which the Benefit Assessment Area has been established.

g.) "District" means the Riverside County Flood Control and Water Conservation District.

h.) "District Act" means the Riverside County Flood Control and Water Conservation District Act, Statutes 1945, Chapter 1122, as amended; California Water Code,

WILLIAM C. KATZENSTEIN
COUNTY COUNSEL
SUITE 300
3535 - 10TH STREET
RIVERSIDE, CALIFORNIA

Appendix, Chapter 48.

i.) "EPA" means the United States Environmental Protection Agency, which, pursuant to the Clean Water Act of 1976, as amended by the Water Quality Act of 1987, has jurisdiction to establish the NPDES program and promulgate regulations pursuant thereto.

j.) "NPDES Permit" means the permit, issued by the regional CRWQCB, dealing with stormwater runoff in association with the National Pollutant Discharge Elimination System (NPDES) and the regulations promulgated by the EPA.

k.) "NPDES Regulations" means the final regulations dated November 16, 1990, and any subsequent amendments thereto promulgated by the EPA governing the National Pollutant Discharge Elimination System (NPDES).

l.) "Ordinance" means this Ordinance No. 14 of the Riverside County Flood Control and Water Conservation District.

m.) "Parcel" means a parcel of property identified by Assessor parcel number as shown on the equalized tax rolls of the County of Riverside, State of California.

ARTICLE III

ESTABLISHMENT OF BENEFIT ASSESSMENT AREAS

Section 1. Formation of Benefit Assessment Areas.

Pursuant to Section 48-14 of the District Act, the Board of Supervisors noticed three public hearings to consider the establishment of three Benefit Assessment Areas for each of which a NPDES Permit would be required by the NPDES Regulations. At the

WILLIAM C. KATZENSTEIN
COUNTY COUNSEL
SUITE 300
3535 10TH STREET
RIVERSIDE, CALIFORNIA

conclusion of the hearings, the Board of Supervisors adopted Resolutions Nos. F91-21, F91-22, and F91-23 which established, respectively, the Santa Ana Watershed Benefit Assessment Area, the Santa Margarita Watershed Benefit Assessment Area, and the Whitewater Watershed Benefit Assessment Area. The legal descriptions for each of the Benefit Assessments Areas are attached hereto, marked respectively Exhibits A, B, and C, and are by this reference incorporated herein.

Section 2. Amendment to or Additional Benefit Assessment Areas.

The District may amend the boundaries of each of the Benefit Assessment Areas or create additional Benefit Assessment Areas, if in the District's administrative judgment the NPDES Regulations and the NPDES Permits issued pursuant thereto so require. To amend the boundaries to a Benefit Assessment Area or to create an additional Benefit Assessment Area, the District is to comply with provisions of the District Act then governing the creation of a benefit assessment area.

ARTICLE IV

REPORT OF CHIEF ENGINEER, HEARING THEREON; CONFIRMATION OF BENEFIT ASSESSMENT BY THE BOARD OF SUPERVISORS

Section 1. Report.

The Chief Engineer shall cause to be prepared annually a written report for each Benefit Assessment Area regarding the Benefit Assessment to be levied and shall file each report with the Clerk of the Board of Supervisors.

Section 2. Content of the Report.

Each report shall contain the District's estimate of

WILLIAM C. KATZENSTEIN
COUNTY COUNSEL
SUITE 300
3535 - 10TH STREET
RIVERSIDE, CALIFORNIA

its administrative and program costs in association with the NPDES Permit for the Benefit Assessment Area for the ensuing fiscal year. Said estimate of cost shall be apportioned to each Parcel on the basis of proportionate stormwater runoff generated from each Parcel to be assessed. Only Parcels not otherwise exempted by this Ordinance or the NPDES Regulations shall have a Benefit Assessment levied on them. The report shall identify all Parcels by Assessor parcel number on which a Benefit Assessment is to be levied and the amount of the assessment.

Section 3. Resolution Accepting Report and Noticing Public Hearing.

Upon the report being filed with the Clerk of the Board of Supervisors, the Board of Supervisors is, by resolution, to accept, if appropriate, the report and to set a date, time and place for a hearing on said report. Prior to the date of the hearing, a notice specifying the date, time, place and purpose of the hearing and identifying those locations at which a property owner may review the report shall be published in a newspaper of general circulation within the Benefit Assessment Area pursuant to the provisions of Section 6066 of the California Government Code. In addition, the District shall cause the notice of the hearing to be posted in at least three public places within the boundaries of the Benefit Assessment Area at least seven (7) days prior to the date of the hearing.

Section 4. Hearing.

The Board of Supervisors shall hear the matter on the date and at the time specified in the notice, or as continued for good cause. At the hearing, the Board of Supervisors shall hear

WILLIAM C. KATZENSTEIN
COUNTY COUNSEL
SUITE 300
3535 10TH STREET
RIVERSIDE, CALIFORNIA

and consider all testimony, oral and written, presented, including all written protests. At the conclusion of the hearing, the Board of Supervisors may revise, change, reduce or modify any Benefit Assessment and shall make its determination upon each Benefit Assessment identified in the report. Thereafter, by resolution it shall confirm the assessments. Such confirming resolution shall be adopted no later than August 10 of each fiscal year in which the Benefit Assessment is to be levied and collected.

Section 5. Enrollment.

The District shall provide certified copies of the confirming resolutions and the roll of confirmed Benefit Assessments, in an acceptable format, to the Auditor-Controller of the County on or before August 10 of each fiscal year.

ARTICLE IV

LEVY OF BENEFIT ASSESSMENT

Section 1. Determination of the Amount to be Assessed.

The District is to estimate for the fiscal year in which the Benefit Assessment is to be levied the administrative and program costs that it will incur pursuant to the NPDES Permit issued for each Benefit Assessment Area. This estimate of costs is to be apportioned among the Parcels within each Benefit Assessment Area on the basis of proportionate stormwater runoff generated by each Parcel. The Benefit Assessment levied and collected within each Benefit Assessment Area may only be applied toward the costs incurred pursuant to the NPDES Permit for that Benefit Assessment Area. If at the conclusion of any fiscal year there remains in the account for a Benefit Assessment Area unexpended funds, the remaining balance shall be applied toward

WILLIAM C. KATZENSTEIN
COUNTY COUNSEL
SUITE 300
3535 - 10TH STREET
RIVERSIDE CALIFORNIA

the estimated costs for the next fiscal year and thereby reduce the amount of the Benefit Assessment to be levied. Benefit Assessments levied and collected pursuant to this Ordinance may not be applied toward any other costs or expenses of the District nor may they be applied to the costs of a Benefit Assessment Area other than the Benefit Assessment Area for which they were levied and collected.

Section 2. Determination of Proportionate Storm Water Runoff and Amount of Benefit Assessment to be Levied.

a.) Benefit Assessment Unit. The District shall express the of proportionate stormwater runoff factor as a decimal. The standard against which all property is to be measured shall be a single-family residential parcel of 7,200 square feet (1/6 acre) in size to which a runoff factor of 0.40 is ascribed and shall be called a Benefit Assessment Unit (BAU).

The runoff factor for each of the classes listed in subsection (b) below are as follows:

Group A	0.80
Group B	0.60
Group C	0.40
Group D	Exempt
Group E	0.0067
Group F	0.0033

The runoff factor for each group is compared to the runoff factor of the standard Benefit Assessment Unit (Group C) as described above. This results in a runoff factor ratio. The runoff factor ratio shall be that ratio established by comparing Benefit Assessment Units assigned to one of the groups listed

WILLIAM C. KATZENSTEIN
COUNTY COUNSEL
SUITE 300
1535 - 10TH STREET
RIVERSIDE, CALIFORNIA

above, compared to the standard Benefit Assessment Unit represented by Group C. The number of Benefit Assessment Units per parcel size for each of the classes listed in subsection (b) below are as follows:

Group A	12 BAU/acre
Group B	9 BAU/acre
Group C	1 BAU/7200 sq. ft. lot
Group D	Exempt
Group E	0.10 BAU/acre
Group F	0.05 BAU/acre

b.) Classification of Parcels. All Parcels shall be assigned to one of the following classifications based on land use:

Group A: Commercial or industrial use

Group B: Institutional uses, ie. churches, or hospitals, or multiple family residential use having four or more units per parcel, ie. apartments or mobile home parks.

Group C: Single family residential or multiple family residential having three or fewer units on 1/6 of an acre parcel.

Group D: Agricultural uses, including dairies, poultry, livestock, groves, orchards, row crops, field crops, vines or dry farming.

Group E: Golf courses, cemeteries, etc. and that portion of a single family residential parcel in excess of 7,200 square feet (1/6 acre) but less than 2.5 acres.

Group F: The undeveloped portion of a parcel such

WILLIAM C. KATZENSTEIN
COUNTY COUNSEL
SUITE 300
3535 - 10TH STREET
RIVERSIDE, CALIFORNIA

as the portion of a single family residential parcel exceeding 2.5 acres.

Calculation of the Benefit Assessment Units to be attributed to a single family residential unit on a Parcel larger than 1/6 acre is cumulative with that portion of the Parcel in excess of the 1/6 acre which falls in either Group E or F being assigned the appropriate BAU for the amount of acreage falling within either Group E or F.

It is determined that Parcels used as a railroad, gas, water, telephone, cable television, electric utility right-of-way, electric line right-of-way or other utility right-of-way will benefit from the programs required by the NPDES Permit and will be subject to the Benefit Assessment to be levied pursuant to this Ordinance.

c.) Exempted Land Uses. All land uses expressly exempted by the NPDES Regulation will be exempted from the levy of a Benefit Assessment pursuant to this Ordinance. Those land uses exempted are:

1.) Agricultural uses, including dairies, poultry, livestock, groves, orchards, row crops, field crops, vines or dry farming.

2.) Vacant, undeveloped parcels.

3.) Publicly owned parcels which are parcels owned by a Federal, State or local public entity or agency and used for public purposes.

d.) Determination of Benefit Assessment Units per Parcel. Once a Parcel is classified and its acreage is

WILLIAM C. KATZENSTEIN
COUNTY COUNSEL
SUITE 300
3535 - 10TH STREET
RIVERSIDE, CALIFORNIA

determined, the appropriate BAU's per acre for its classification will be multiplied by the acreage to determine the total Benefit Assessment Units for the Parcel

e.) Determination of Benefit Assessment to be levied per Benefit Assessment Unit. The aggregate number of Benefit Assessment Units within a Benefit Assessment Area will be divided into the estimated administrative and program costs for the Benefit Assessment Area to determine the amount of Benefit Assessment to be levied per Benefit Assessment Unit. The Benefit Assessment to be levied on a Parcel is determined by the number of Benefit Assessment Units ascribed to the Parcel and the assessment value of each unit.

ARTICLE V

COLLECTION OF BENEFIT ASSESSMENT.

Section 1. Collection by Treasurer/Tax Collector.

The confirmed Benefit Assessment for each Parcel shall appear as a separate item on the tax bill issued by the Treasurer-Tax Collector of the County. The Benefit Assessment shall be levied and collected at the same time and in the same manner as the general ad valorem property taxes and shall be subject to the same penalties and the same procedures for sale in case of delinquency. If, for the first year the Benefit Assessment is levied, the property on which the Benefit Assessment is levied has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attached thereon, prior to the date on which the first installment of ad valorem property taxes would become delinquent, the Benefit Assessment shall not result in a

WILLIAM C. KATZENSTEIN
COUNTY COUNSEL
SUITE 300
3535 - 10TH STREET
RIVERSIDE, CALIFORNIA

lien against the real property but shall be transferred to the unsecured roll.

Section 2. Applicable Law.

All laws applicable to the levy, collection and enforcement of ad valorem property taxes shall be applicable to Benefit Assessments, except as otherwise provided herein.

Section 3. Validity of Benefit Assessment Not Affected by Time Limits.

Failure to meet the time limits set forth in this Ordinance for whatever reason shall not invalidate any Benefit Assessment levied hereunder.

ARTICLE VI

CORRECTION OR CHANGE TO THE TAX ROLL

Section 1. Initiation of the Correction or Change.

A correction or change to the tax roll with respect to a Benefit Assessment may be made by the Chief Engineer, either on his own initiative, or on application by a property owner (the "Assessee").

Section 2. Initiation by Flood Control Engineer.

The Chief Engineer may initiate a correction or change to the tax roll at any time within four (4) years of the date of the resolution of the Board of Supervisors confirming Benefit Assessments placed upon the tax roll.

Section 3. Initiation by the Assessee.

The Assessee may initiate a correction or change to the tax roll by filing a written application with the Chief Engineer within 60 days following his/her receipt of the tax bill reflecting the Benefit Assessment. The application shall contain

WILLIAM C. KATZENSTEIN
COUNTY COUNSEL
SUITE 300
3535 - 10TH STREET
RIVERSIDE, CALIFORNIA

or include the following information, together with such additional information deemed relevant by the Assessee or requested by the Chief Engineer:

1. Assessor's parcel number.

2. Gross acreage.

3. Use of property as of the preceding March 1st.

4. Measurements of man-made impervious area, if known.

5. Copy of the tax bill containing the benefit assessment.

Section 4. Categories of Corrections or Changes.

Upon approval of the Chief Engineer, corrections or changes shall be made with respect to:

1. Ownership of a Parcel;

2. Address of an owner of a Parcel;

3. Subdivision of an existing Parcel;

4. Land use category of all or part of a Parcel;

5. Computation of the area of a Parcel;

6. Erroneous computation of the Benefit Assessment.

Corrections to the tax roll shall not be valid unless and until approved by the Board of Supervisors. All corrections or changes must be reported by the Chief Engineer to the Auditor-Controller of the County, who shall prepare the amended billing, as the case may be. The Chief Engineer shall give written notice to the Assessee of the action taken on the application.

If the Assessee disagrees with the Chief Engineer's determination, he/she may file an appeal with the Board of Supervisors within 30 days after receipt of the written notice.

WILLIAM C. KATZENSTEIN
COUNTY COUNSEL
SUITE 300
3535 10TH STREET
RIVERSIDE, CALIFORNIA

The appeal shall be initiated by a written application filed with the Clerk of the Board of Supervisors for refund of all or part of the Benefit Assessment. The decision of the Board of Supervisors shall be final and shall complete the administrative process. Any further action by the Assessee for recovery of any part of the Benefit Assessment shall be by complaint for refund filed in the Superior Court.

ARTICLE VII

EFFECTIVE DATE OF ORDINANCE

This Ordinance shall take effect and be in force 30 days after the adoption by the Board of Supervisors. Before the expiration of fifteen (15) days after the effective date of this Ordinance it shall be published once in The Press-Enterprise, a newspaper of general circulation in the County of Riverside.
